

# Predicted price cap rise shows folly of relying on overseas energy

GMB Union has warned the **predicted energy price cap rise** shows the folly of relying on overseas energy.

**Charlotte Brumpton-Childs, GMB National Secretary, said:**

“Even with the Labour Government reducing average bills – the predicted price rises will hit people hard.

“It’s a stark reminder relying on non-domestic energy sources is sheer folly and leaves the UK brutally exposed to the whims of the market.”
