

## Play Amazon warehouse whack-a-mole

18 Dec 2018

---

We know Amazon workers face gruelling conditions. And with just a week to go until Christmas, no doubt the pressure will be ramped up.

GMB Union has launched a brand new online & interactive game to raise awareness of the shocking conditions Amazon warehouse workers – our members – face.

**It's a whack-a-mole style game and you can play it now at:**  
**<https://workersnotrobots.com>**

▪  
The game is fun and interactive, but has a serious message throughout: no-one should be scared of leaving work in an ambulance.

And that's the reality workers at Amazon face.

The company has an appalling health and safety record. GMB Union investigations have revealed ambulances have been called out to Amazon warehouses more than 600 times over the last three years.

Christmas is a busy time for Amazon as we all rush to get our presents sorted. But it's also a time for reflection and solidarity. As part of the campaign we're asking customers to simply leave a review in support of GMB Union recognition if they do use Amazon.
