GMB calls on Asda to act against any customer who abuses or assaults Asda staff and ensure the workforce are kept safe

Mark Wilkinson GMB Senior Organiser said:

“Retail workers have worked throughout the pandemic helping to ensure the country is fed. Despite this they continue to face abuse and assault on a daily basis.

“The abhorrent attacks on Asda Clapham Junction staff, which many will have seen on social media, are the final straw

“Nobody should face that sort of violence and abuse just for doing their job.

“GMB members working for Asda have two clear demands – Asda must prosecute whenever a colleague is abused or assaulted, and they must put in place adequate security in store to ensure staff are safe.

“Nobody can possibly think these are unreasonable demands. Asda must act before more people are seriously hurt.”
