

FINAL AGENDA

ANNUAL CONGRESS 2009 WINTER GARDENS BLACKPOOL

SUNDAY 14 JUNE 2009 to WEDNESDAY 17 JUNE 2009
9.30 am - 12.30 pm, 2.00 pm - 5.00 pm

1974 CONGRESS, BLACKPOOL

MOTION 257

PRE-CONGRESS DELEGATE MEETINGS

Congress agrees that in order to widen the area of debate, and to achieve a more democratic expression of Congress delegates, Pre-Congress meetings should determine their voting intentions, with regard to resolutions from within their own Region, and matters reflecting a point of principle. But should not determine an intractable attitude to resolutions from other Regions until the conclusion of the general debate.

GUIDELINES FOR CONGRESS BUSINESS

These guidelines provide a broad, but flexible, framework for dealing with Congress business and have been drawn up in accordance with the Rules of the Union. They are intended as guidelines for the President, Congress and the Standing Orders Committee itself.

1. CONGRESS

Congress is convened and delegates are elected subject to the provisions of the Union Rule Book. Congress shall conduct its business at the following times:

Sunday 14 June 2009 to Wednesday 17 June 2009
9.30 am - 12.30 pm, 2.00 pm - 5.00 pm

Changes in these times will be discussed between the President of Congress and the Standing Orders Committee.

2. STANDING ORDERS COMMITTEE

The Standing Orders Committee shall be appointed in accordance with Rule 9. The members of the Standing Orders Committee shall elect a chair from amongst their own number.

The Standing Orders Committee shall have power to recommend to Congress proposals on the conduct of Congress business as covered by these guidelines.

The Standing Orders Committee shall meet as and when may be necessary to arrange Congress business.

The Central Executive Council may appoint up to three Observers to advise Standing Orders Committee.

3. GENERAL MOTIONS AND RULE AMENDMENTS

Motions on general policy and to amend rules shall be placed on the agenda according to the provisions of the Rule Book.

It is the responsibility of the Standing Orders Committee at Congress to make recommendations to Congress for the handling of the agenda.

The Standing Orders Committee has three responsibilities in respect of Motions submitted to Congress:

- (1) The Committee shall determine whether or not each Motion is "in order" for debate at Congress i.e.
 - whether the Motion ought to be dealt with by a more appropriate body (for example a JIC or a Section or Delegate Conference);
 - whether, at a Congress which is not a Rules Revision Congress, the Motion conflicts with a rule, or is an explicit rule amendment or would require a consequential rule amendment to give effect to its provisions;
 - whether the Motion covers more than one subject;
 - whether, after consultation with the delegation, the provisions of the Motion are still relevant and appropriate to the present situation (i.e. whether the Motion has been "overtaken by events");

- whether the wording of the Motion is incomprehensible;
- whether at a Rules Revision Congress, a rule amendment Motion would leave a rule deficient;
- whether the Motion conflicts with a previous Congress resolution that it does not expressly seek to overturn.

If a Motion comes within any of these categories, it shall be ruled "out of order" by the Standing Orders Committee, and the Committee shall recommend to Congress accordingly.

(2) The Committee shall make proposals to Regional delegations on the withdrawal of a Motion in favour of another Motion on the Congress agenda. In determining whether to recommend the withdrawal of a Motion, the Committee shall ensure that the principles and proposals incorporated in that Motion are fully covered by the Motion that will remain on the agenda.

A Regional delegation is entitled to reject the Committee's proposal to withdraw, and to allow its Motion to stand on the agenda.

If a Regional delegation agrees to the withdrawal of its Motion the Standing Orders Committee will, if it wishes, recommend the right to second the other Motion or the right to speak in support of it. The Standing Orders Committee will report the recommendation accordingly to Congress.

(3) The Standing Orders Committee shall assist Regional delegations in the drafting of composite resolutions and shall make proposals and recommendations accordingly.

In determining proposals on composite resolutions, the Committee shall bear in mind the following points:

- that the principles and proposals of the Motions concerned are covered in the composite resolution
- that the wording of the composite resolution reflects the meaning of the original Motions.

The first Report of the Committee shall, as far as possible, report on agreed composite Motions, and/or indicate those Motions which are being considered for compositing and fix the time and place at which Regional delegations are required to meet the SOC either to discuss the compositing of Motions, or any other matters relating to Motions standing in the name of a Regional delegation.

In the event of a delegation failing to respond to an invitation to meet the SOC this shall be reported to Congress with the recommendation that the Motion shall fall.

If in the opinion of the SOC a Regional delegation has unreasonably declined to composite a Motion, this shall be reported to Congress with any recommendations that the Chair of SOC deems appropriate.

If it is proposed to composite Motions on which the CEC has adopted different attitudes, the CEC Observers shall consult with the General Secretary. The Standing Orders Committee and the Delegations involved in the proposed compositing shall be informed of the CEC attitude prior to the proposed composite being finalised.

If the Regional delegation agrees to a composite resolution, agreement will then be sought between the delegations concerned on which shall move and second the resolution and, where appropriate, which Regional delegation shall have the right to speak in support of it. The Standing Orders Committee will report the recommendation accordingly to Congress.

Priority in debate will be given to those delegates who assist in achieving a composite.

4. EMERGENCY MOTIONS

Any Delegate wishing to submit an Emergency Motion shall in the first instance seek the agreement of his/her Regional delegation that the Motion is an Emergency Motion. It shall then be referred to the Standing Orders Committee, which shall decide whether the Motion is an Emergency Motion after taking account of the following points:

- whether the Motion involves a serious situation needing quick action
- whether the Motion relates to events that have occurred after the closing date for motions as prescribed in the Rule Book
- whether the Motion relates to a decision already taken by the Congress which is in session and would consequently amend or rescind the decision.

Emergency Motions can be composited.

5. WITHDRAWAL OF MOTIONS

If a Regional delegation wishes to withdraw a Motion in the name of a branch of the Region, or in the name of the Regional Committee, the Regional Secretary shall notify the Standing Orders Committee.

6. MATTERS OF URGENCY

Any delegate wishing to bring before Congress "a matter of urgency" not on the agenda shall in the first instance seek the agreement of his/her Regional delegation that the matter is one of urgency. It shall then be referred to the Standing Orders Committee, which shall recommend whether or not the matter is one of urgency, after taking account of the following points:

- whether the matter needs immediate decision and is a matter which is not (whether by Motion or otherwise) already on the agenda
- whether the matter could have been dealt with adequately in an ordinary Motion placed on the Congress agenda, or by an Emergency Motion.

The Standing Orders Committee shall inform the President of Congress and Congress of its recommendation. The President shall then put the Motion that the matter be taken as a matter of urgency, and it is then the responsibility of Congress to decide whether the matter be so brought forward.

7. CENTRAL EXECUTIVE COUNCIL

The Central Executive Council has the right within rule to submit Motions to Congress. The Central Executive Council will notify Regional delegations of these Motions prior to their pre-Congress meetings.

The Central Executive Council shall have the right to submit Motions as "a matter of emergency" to Congress. The Central Executive Council should notify the Standing Orders Committee of their intention to do so.

Subject to the provisions of Rule 8, the Central Executive Council members should only speak at Congress where they are representing Central Executive Council policy. Where a Central Executive Council member is asked by his/her Regional delegation to speak to the Regional delegation's

policy, he/she shall only do so provided the delegation's policy is not in contravention with Central Executive Council policy.

8. DEBATING PROCEDURE

The Procedure for debating Congress Motions shall normally be at the discretion of the President who will indicate to Congress wherever appropriate, the procedure or procedures he/she intends to adopt.

In determining the procedure for debating Motions, the President shall have regard to the following points:

- no resolution of the Congress in session can be amended, rescinded or negated by a subsequent Motion, at that Congress;
- precedence in debates shall be given to a Motion of the Central Executive Council;
- rule amendments take precedence in debate over general Motions;
- personal attacks on colleagues should not take place.

The Standing Orders Committee shall advise the President what Motions will fall if another motion or a Special Report is carried.

9. TIME LIMITS FOR SPEAKERS

The times for speakers will be recommended by the Standing Orders Committee, taking account of the amount of business on the agenda.

It may be necessary, in order that the business of Congress is properly completed, that time for speakers be curtailed. The Standing Orders Committee shall recommend revised times for speakers to Congress. If, in the interests of saving Congress time, a Motion that the Central Executive Council is accepting without qualification is formally moved and seconded, there shall be no CEC speaker on the Motion.

10. VOTING

It shall be within the discretion of the President to determine the manner of voting, whether it be by a show of hands, a tellers vote or a card vote.

Only Delegates seated in the Congress Hall should vote. If, in exceptional circumstances, the President instructs that the doors to the Hall be closed, he/she should give prior warning to Delegates.

Show of Hands: The President shall call for those in favour to show, and shall then call for those against.

Teller Vote: The tellers elected for each Region shall, when the President of Congress instructs, count the hands raised In Favour. They will report this total to the General Member Auditors. The tellers then shall likewise count the hands raised Against, and similarly report the total to the General Member Auditors. The General Member Auditors shall report the result to the President.

Card Vote: A book of voting cards will be issued to each delegate. Each book will contain numbered cards marked "For", and cards marked "Against". The number on each card is to identify the number of the vote, and cannot be used to identify the individual voting. The

appropriate voting card will be selected and used by the delegate to vote either "For" or "Against". The card must not be marked in any way, but placed in the ballot box provided by the teller.

When the President has decided that a card vote is necessary:

- (a) tellers will provide a ballot box for each regional delegation;
- (b) the President will announce the number of the card to be used – for example: 'Card Vote number 1';
- (c) delegates will choose the appropriate numbered card, marked either "For" or "Against" from their book of voting cards and place it into the ballot box provided;
- (d) once the President has announced 'Card Vote completed' tellers will take the ballot boxes to the General Member Auditors;
- (e) the General Member Auditors will count the votes, and notify the President of the result

President: The President of Congress shall have no vote. If there is a tied vote, then the motion shall fall.

11. VOTING FOR PRESIDENT AND VICE-PRESIDENT

The President and Vice-President of the Union shall be elected by Congress, in accordance with the provisions of Rule 12 and 13. Ballot papers bearing the names of the candidates will be issued at Congress.

12. LITERATURE

No literature or leaflets - other than official GMB literature - may be distributed inside the Congress Building without the prior permission of the Standing Orders Committee.

Literature, wherever distributed, which is intended to influence the voting intentions of delegates to Congress, should be brought to the attention of the Standing Orders Committee.

13. PREVIOUS CONGRESS DECISIONS

The following Motions, carried at previous Congresses, relate to the conduct of Congress.

1974 CONGRESS, BLACKPOOL, MOTION 257

PRE-CONGRESS DELEGATE MEETINGS

Congress agrees that in order to widen the area of debate, and to achieve a more democratic expression of Congress delegates, Pre-Congress meetings should determine their voting intentions, with regard to resolutions from within their own Region, and matters reflecting a point of principle. But should not determine an intractable attitude to resolutions from other Regions until the conclusion of the general debate.

1985 CONGRESS, BLACKPOOL, SPECIAL MOTION

CORE RULE 34

Congress re-affirms the powers of the Central Executive Council as provided for within Rule to revise Officials' salaries and matters related to conditions of service.

CENTRAL EXECUTIVE COUNCIL

1993 CONGRESS, PORTSMOUTH, MOTION 144

CONGRESS DOCUMENTS

Congress agrees that at future Congresses, all documents provided by the Central Executive Council and any Motions with several components, shall be voted on by paragraph or section, where that year's Congress decides by a majority vote to do so. Congress can thus reject parts of documents and Motions without rejecting all that is presented.

MELTON GENERAL BRANCH
(Midland & East Coast Region)

1999 CONGRESS, BLACKPOOL, MOTION 9

CONGRESS DEMOCRACY

Congress has previously resolved that Pre-Congress meetings should not determine an intractable attitude to resolutions from other regions until the conclusion of the general debate (1974 Congress).

Congress now demands the end of the practice of regions mandating delegates on any motions other than those of their own region, unless a major matter of principle is involved.

2003 CONGRESS, BLACKPOOL, MOTION 11

UNION DEMOCRACY

Congress calls for delegates to have democratic freedom.

It would be of assistance to have voting procedures explained at start of Congress.

At last Congress many delegates supported motions but voted against because they were instructed to oppose. New delegates were not aware they could have free votes.

STANDING ORDERS COMMITTEE REPORT NO 1

The business of Congress will be conducted in accordance with the Agenda, the Programme and the Guidelines for Congress Business, subject to changes at the President's discretion.

Times for Congress

The Standing Orders Committee wishes to draw the attention of Delegates to the starting times of the morning and afternoon sessions set out in the Congress programme as follows:

Sunday 14 June 2009 to Wednesday 17 June 2009
9.30 am – 12.30 pm, 2.00 pm – 5.00 pm

The Standing Orders Committee recommends that the President be authorised to close each session when appropriate, without further reference to the Standing Orders Committee or to Congress.

Times for Speakers

The Standing Orders Committee recommends the following Time Limits for Speakers.

General Motions and Rule Amendments:

Movers up to	4 Minutes
Seconders up to	2 Minutes
Other Speakers up to	2 Minutes

Officers' Reports:

General Secretary up to	10 Minutes
Movers of Section Reports up to	5 Minutes
Questions up to	1 Minute

Officers' and Section Reports, and questions to them, should relate only to matters of general policy, and not to details of negotiations.

Special Reports and CEC Statements:

Mover up to	6 Minutes
Secunder up to	3 Minutes
Other Speakers up to	3 Minutes

It would help the business of Congress enormously if, wherever possible, motions could be formally seconded, and if replies to questions and debates were kept to a minimum.

The Standing Orders Committee draws Delegates' attention to the two rostrums and asks speakers to be ready by the vacant rostrum when it is their turn to speak. Chairs will be provided at the front of the hall for speakers awaiting their turn.

Questions on Balance Sheet and Auditors' Report

Questions on the Balance Sheet and Auditors' Report must be submitted in writing to the Congress platform no later than 5 pm on Monday 15 June.

Motions Out of Order

The Standing Orders Committee has ruled that the following Motions and Rule Amendment are Out of Order for the reasons specified:

Motion 114 Green Book

The Motion refers to a specific element of local authority members' terms and conditions namely the "Green Book". In accordance with the Guidelines for Congress Business, the Motion ought to be dealt with by a more appropriate body i.e. the NJC for Local Government Services.

Motion 118 NHS Pay Deal

The Motion refers to a specific element of NHS members' terms and conditions namely their pay. In accordance with the Guidelines for Congress Business, the Motion ought to be dealt with by a more appropriate body i.e. the NHS National Advisory Committee.

Motion 159 Disaffiliation from the Labour Party

The Motion calls for "an end to our affiliation to the Labour Party". This would require consequential amendments to Rules 12.1 and 19.10. There are no proposed amendments to these Rules and the Motion is out of order for this reason.

RA 257 Political Fund

The Rule Amendment proposes to amend Rule 65 so that no payments shall be made from the union's Political Fund in respect of affiliation by the union to any political party save where such affiliation has been approved in a ballot of members. This would require consequential amendments to Rules 12.1 and 19.10. There are no proposed amendments to these Rules and the Rule Amendment is deficient and out of order for this reason.

Motions in line with Existing Policy

In accordance with Recommendation 14 of the Framework for the Future of GMB: Moving Forward" CEC Special Report endorsed by Congress 2007, the CEC has advised the Standing Orders Committee about those Motions which are in line with existing GMB policy. The CEC Report on "Existing Policy Motions" printed in the Final Agenda explains when and how existing policy was established in each case. The Standing Orders Committee has accepted the advice and is recommending to Congress 2009 that the following Motions be put to Congress 2009 for endorsement without the need for debate:

33. Equality Representatives
38. The State of the British Pension Provision
45. State Pensions for Women
47. Private Equity Responsible Investment
50. Trade Union Freedom Bill
51. Trade Union Recognition Legislation
54. Level Playing Field – Terms and Conditions
61. Public Holidays
76. Energy Policy

158. GMB Political Support
166. Urgent Action Against the BNP
190. Council Housing
196. Prescription Charges
203. Public Transport
215. Fuel Poverty

Composite Motions

Agreement has been reached on the Composite Motions printed in the Final Agenda.

Election of President and Vice-President

In the event of a contested election of President and/or Vice-President of the Union, the Committee recommends the following procedure:

The General Secretary should announce the names of the candidates to Congress at the close of business on the afternoon of Sunday 14 June 2009.

Ballot papers will be prepared under the supervision of the Standing Orders Committee. At 10.00 am on the morning of Monday 15 June, the General Member Auditors will deliver to each Regional Secretary the envelope containing the ballot papers for lay delegates of the Region. Central Executive Council members and other non-voting delegates are not entitled to vote in this election. The Regional Secretary will issue a ballot paper to each delegate entitled to vote.

If any delegate arrives late, his/her Regional Secretary should accompany the delegate to the General Member Auditors and request a ballot paper.

Each delegate is entitled to place their voting paper in one of the ballot boxes at the front of the hall. Tellers are *not* responsible for collecting ballot papers in this election.

Voting will close at 2.30 p.m. on Monday 15 June, at which time the General Member Auditors will take the ballot boxes and count the votes. They should report the result to Congress before the end of the afternoon Session on the same day.

Emergency Motions

The Committee has ruled that the following Emergency Motion is in order:

Emergency Motion 1 "Ban the Blacklisters" standing in the name of Yorkshire & North Derbyshire Region.

Mobile Phones

If mobile phones are brought into the Congress Hall, they must be switched off at all times when Congress is in session.

Film Cameras

The Standing Orders Committee has given permission for film cameras to be used in the Conference Hall. The Committee has been assured that filming will be carried out with no interference to Delegates.

DVDs, Videos etc

Requests to play DVDs, videos, etc should be submitted to the Standing Orders Committee for approval prior to be shown at Congress.

Bucket Collections

Requests for permission to hold Bucket Collections should be submitted in writing to the Committee by 11 am on the first Sunday morning session of Congress. (It is a term of Exhibitors' agreements with GMB that they will not request permission to hold a collection.) Requests must be submitted in writing by the Regional Secretary, and must have the support of the Regional Delegation. Priority will be given to requests for bucket collections which concern trade union or related issues. Where permission is granted, those requesting the collection must organise, count and bank the collection, if necessary liaising with the Congress office for support from Congress

Stewards. They must then notify the Congress office of the amount collected, so that the President can inform Congress.

In the normal course of events the total number of bucket collections to be authorised by the SOC will be limited to a maximum of 3, except in exceptional and unforeseen circumstances at the discretion of the President. The SOC will limit consideration of requests for bucket collections to a maximum of 1 per Region, except in exceptional and unforeseen circumstances.

By agreement reached at Congress 96, Regional Committees will each contribute a further sum to the national Congress gift. So permission will not be granted for a collection to augment the Congress gift

3. MOTIONS

Congress acknowledges that the current new regime of excluding motions to Congress because they are section specific in alternate years (Congresses with integrated section conferences) leads to a diminution of the understanding within the union as a whole of the issues which are important to its sections.

6. AMALGAMATION

That Congress accepts that the possibility of enlarging our Union by amalgamation with other unions so far has proved to be ill advised! However, Congress believes that amalgamation with such Unions as the RMT and the NUM should be considered, under the right circumstances, beneficial to all concerned. Congress therefore instructs the Central Executive Council to initiate talks with the RMT and NUM on the possibility of amalgamation.

7. WORKING TOGETHER WITH UNISON

Congress acknowledges and supports our closer working arrangements with UNISON on matters of political or industrial issues affecting GMB members.

Whilst we support such working arrangements in principle, we believe also that, in practice, it is essential that local and regional dialogue between GMB and UNISON takes place in order to ensure closer working arrangements actually develop on the ground.

Congress believes such a dialogue should be initiated within each region of the GMB and its UNISON counterpart.

8. GEOGRAPHICAL BOUNDARIES OF THE GMB

This Congress instructs the CEC to address the issues of Regional Boundaries forthwith.

The current situation of boundaries dividing cities, such as in the case in London, is plainly ridiculous. Therefore the CEC must present to Congress 2010 a plan for re-drawing the boundaries, with a view to correcting this situation and making our Union more effective and efficient.

RECRUITMENT & ORGANISATION

©1 11. NATIONAL STRATEGY FOR MIGRANT WORKERS

Congress Agrees That:

In the coming years there are going to be increasing amounts of migrant workers entering the UK. Congress asks that the GMB nationwide adopts the migrant worker recruitment and organising strategy that has been successfully piloted by some regions of our union in response to the GMB national strategy laid down in 2006/7.

Congress notes that in some regions migrant worker recruitment and organising strategies have been successful in recruiting a large number of new members and that this strategy is the best way to address a growing need for migrant worker protection in this country. These migrant worker projects have been carried out using minimum resources from GMB funds as they have been financed by way of Government and TUC funding and the Learning Works for All Fund. Migrant workers have been trained to run the projects themselves with assistance and guidance from their regions.

Recruitment of migrant workers has been highly successful. By offering a way into English language courses and numeracy and literacy courses in partnership with local colleges implementing education strategy, and by offering representation in the workplace the Southern Region now has a large Migrant Workers Branch as well as Migrant Workers Forum run by migrant workers.

The GMB has had a long held belief that in order to protect UK workers' terms and conditions we must recruit and organise the migrant workers who are exploited into accepting poor wages and even poorer employment rights in the workplace. Congress asks that the migrant worker recruitment and organising strategy is now implemented in all Regions. The GMB has been the leading trade union when it comes to recruiting, organising and protecting migrant workers. Congress now asks that this successful strategy is carried out and resourced nationally in all Regions of our union.

MIGRANT WORKERS M48 BRANCH

©1 12. NATIONAL MIGRANT WORKERS' STRATEGY

As Britain's labour market continues to become more deregulated, leading to ever more exploitation of both indigenous and migrant workers, there is an urgent requirement for the GMB to tackle this increasing exploitation, by re-emphasising its commitment to a national organising strategy, encompassing migrant workers and indigenous workers.

The Southern Region's migrant workers' strategy has successfully sought to recognise and understand the issues surrounding migrant workers, both in the workplace and the wider community and has organised, successfully, with migrant workers in those two areas.

This Congress therefore seeks the adoption, nationally, of the Southern Region's Migrant Workers Recruitment and Organising Strategy, which having been developed with the GMB's National Organising Strategy in mind, is now implemented and resourced into all other regions, so as to create a focused National Migrant Strategy. This will enable the GMB to continue to be the leading trades union in the recruiting, organising and protection of migrant workers.

14. REVIEW OF SELECTION PROCESS TO NATIONAL EQUALITIES FORUM

Congress calls for a review of the selection process for the National Equalities Forum.

The way in which candidates were selected does not reflect the GMB strategy for equality through inclusion, as there is no representative for Midland & East Coast Region.

We agree the structure for the National Equalities Forum is the way forward for our Union, but we want to propose these changes to Congress that we feel would make the selection process fair for all our Regions.

Each Region will select one member from their own Regional Equalities Forum, thus guaranteeing each Region representation on the National Forum.

The three remaining seats, under the current structure, to be allocated one each to the three National Section Committees.

An additional seat is created to cover our Retired members. This seat to be selected from our Retired Members Association.

With these changes, we believe that the National Equalities Forum will then be able to deliver equalities through inclusion to all our Regions, and ultimately to all our members.

We ask Congress to support this Motion.

Congress note with alarm the use of General Fund finances to fund staff pensions. This is a breaking of a solemn promise by the past General Secretary, John Edmonds that this would never occur. 24. MEMBERSHIP FEES – FAIR DUES FOR ALL

Congress is concerned that the current application of calculating Union dues impacts upon and is unfair and unjust to low paid, mainly female members.

The current method whereby all part-time members pay the same amount and all full-time members pay the same, needs to be replaced with a more acceptable and egalitarian system.

Congress notes that all other National Unions use block and/or tapering membership dues, based on annual earnings, which is a fairer way of calculating deductions.

Congress expresses its dissatisfaction at the current method employed to calculate Union dues as an outdated model which needs replacing by a more fairer system.

Congress instructs the CEC and Finance Committee to research this issue and to introduce and implement a more fair and equitable method of deducting membership dues, ensuring equality for all our members.

25. CONTRIBUTIONS IN PUBLIC SERVICES

Congress instructs the CEC and senior management team to come up with realistic proposals for membership rates within the Public Service Section based on the ability to pay, and competitiveness with other Trade Unions giving the equality of full membership at all rates.

This to be brought in for September 2010 and ratified at 2010 congress.

26. NEW YOUTH MEMBERSHIP RATE AND PROMOTION

Congress recognises the difficulties that the GMB has in getting the younger members of the workplace interested in joining a trade union, we are also conscious that these people are, for the most part on low earnings as a result of their age and the discriminatory element of the 'National Minimum Wage Legislation'. Therefore, Congress calls upon the CEC to give consideration to this issue with the purpose of developing and introducing an appropriate 'Young Persons' rate, that reflects the lesser earnings that the law permits employers to pay people 21 years of age and under.

Congress also recognises that we need to be more proactive in recruiting such young members into the trade union movement and nurture and encourage such youngsters in the hope that they retain membership for life. Therefore, Congress calls upon the GMB to produce campaign literature specifically aimed at the youth member, and actively promote the recruitment of such members via the branch activists within the workplace. Furthermore, to give consideration to using recruitment teams to seek out and take advantage of any College or School based open day to promote the importance of trade unionism within 21st Century.

In view of real issues faced by members and these new duties. 35. MOTION ON ABORTION RIGHTS

Congress notes that:

- The rights of all women to access safe, legal abortion is an advance for women and is necessary to achieve a society that values the lives and rights of women
- Before the 1967 Act legalised abortion thousands of women died or were seriously injured due to back street abortions

- The trade union movement has a proud record of defending a woman's right to choose
- Opinion polls show 83 per cent of people support a woman's right to choose.

Congress further notes that:

- The Human Fertilisation and Embryology Bill was used by anti-choice organisations and MPs to seek to restrict the right to abortion
- There are regular attempts to undermine and restrict women's right to abortion
- Attempts to lower the upper time limit for abortion will affect the most vulnerable women and force them to carry on with unwanted pregnancies

EP 38. THE STATE OF THE BRITISH PENSION PROVISION

Congress calls upon the GMB to highlight to Government the derisory state of the British pension system.

At the time of an economic slump, employers have left thousands of GMB members out of pocket by dumping final salary schemes and encouraging the use of money purchase pensions through so-called independent (but commission paid) Financial Advisors – hardly independent! Millions more are on such low pay, i.e. Minimum Wage, that pensions are out of reach of them.

If Government is incapable of regulatory reform, is it not time to simply give up capitalist corruption and pay our members' money back to them, with interest?

©2 39. FINAL SALARY PENSION SCHEMES

Congress is well aware of the present tough economic climate the UK and the global economy is experiencing and many companies are now considering, or have already made a decision, to close their final salary pension schemes to current employees and new entrants. Also under consideration is the transfer of employee's pensions to money purchase schemes, which are associated with a higher degree of risk, because of exposure to stock market precariousness, obviously the implementation of this option would take away the protection that final salary schemes offer to our members.

We believe that many companies are using the down turn in the economy as an excuse to close final salary pension schemes and we call on Congress to give maximum support to our members whose pension schemes come under threat and call upon the Government to legislate to give greater protection to all workers' pensions' schemes.

42. STATE PENSION ONLY

The collapse of the world financial institutions has led to a serious underfunding of private sector pensions. This situation has been further exacerbated through the policy of companies replacing their Occupational Final Salary pension schemes with Money Purchase pension schemes.

Congress calls upon the Government to commence the gradual phasing out of these private sector pension schemes by introducing a National State Pension scheme built upon employers and employees contributions linked to earnings.

Across the European Union and in new member states pressure is being applied to replace their National State Pension schemes with private sector schemes. The Trade Union movement must resist this pressurising and demand that Britain and all EU States have National State Pension schemes linked to earnings.

48. GMB CAMPAIGN FOR ENVIRONMENTAL INVESTMENTS

Congress welcomes the Prime Minister's announcement in response to the "credit crunch" to create 100,000 new jobs via public works and public investments in sustainable, technological and environmental industries.

However with the economy facing the worst financial conditions since the depression of the 1930's, this is not enough. Government and trade unions at all levels must use this crisis as an opportunity to re-shape the industrial landscape of Britain.

To this end the CEC pledges that GMB will campaign to –

1. Lobby MPs and local councilors on the investment of Pension Funds to ensure that investments are environmentally and financially sustainable.

2. Inform and educate GMB members on how pensions can be invested to deliver strong financial returns and environmentally sustainable industries.
3. Educate and encourage GMB members and trustees of pension funds to influence investment opportunities proactively and in line with GMB policy.
4. Train GMB representatives on the benefits of responsible investment.

Obviously this will involve a commitment of internal resources but Congress recognizes the importance of dealing with both the changing industrial landscape and the need for sustainable employment across the UK.

EP 50. TRADE UNION FREEDOM BILL

Congress notes that UK trade union law remains amongst the most restrictive in Europe and the CEC reiterates its policy of repeal of anti-trade union laws.

Congress believes free and independent trade unions are a force for good in UK society. The role of trade unions in providing protection for working people should be encouraged and with a Labour Government in power, the opportunity to repeal current legislation should be a priority. The Trade Union movement has been placed in the invidious position of having to withdraw from potential dispute as the test between the two fundamental rights is vague and subjective and the potential for damage is too great in this uncertain environment. Congress instructs the GMB leadership to mount a campaign within the European and UK labour movement to encourage governments to regulate the employment market and create far reaching protections for employees at work. In view of the failings of unfettered capitalism, creating the credit crisis and deep recession, as with the bail out to the banks and other industry to boost confidence and underpin the economy, so should workers enjoy the same support. Fear of unemployment is the greatest driving force in deepening the recession and possibly bringing depression, therefore governments must act to make redundancy an expensive option and the last possible choice.

58. EMPLOYMENT

Congress: Notes that an "unprecedented crisis calls for unprecedented action".

Congress: urge those in power to turn action into reality. This motion puts forward radical thinking for desperate times to halt the unprecedented rise in unemployment.

Congress: is astonished to hear that there are those still working a 60 hour week on overtime whilst others cannot find work.

Congress calls for:

1. Reducing the working week to 30 hours;
2. Increasing the minimum wage to £7 per hour;
3. Introducing job share as a positive move to reducing unemployment at one fell sweep, therefore increasing the skills factor but still maintaining productivity;
4. Government to encourage employers through subsidies and tax cuts to comply with this programme.

Congress: Calls on those in power not to throw the British workforce on the scrap-heap of unemployment but to throw them a lifeline of full employment. We cannot alone rely on employers to take the initiative, this must be taken at government level.

Congress: believes with this forward thinking programme Britain can work its way back to full productivity and a sound economy. We ask why are billions of pounds being squandered on city banks with no returns when it can be invested in the British workforce, who will succeed through hard work and comradeship with one aim: to get us out of the mess that the city banks got us into! 60. WORKING TIME REGULATIONS AND HOLIDAY PAY

Congress requests the GMB leadership to lobby government for clear legislation to ensure that the true sum for holiday pay is made at the revised statutory minimum holiday levels. Congress wishes to ensure that the normal working week is fully converted into the pay for the job under the working time regulations. Congress wishes the government to close the loophole that allows companies to pay , for example, basic pay for holiday, when the normal working week includes shift, unsocial hours and premium payments for shift working patterns. The working time regulations must ensure that consolidated wage and shift working pay formulae account for holiday in terms of what is normally worked and any associated premiums built in to salary levels. Current legislation allows payment systems to pay equal amounts weekly/monthly, with no penalty when taking holiday, but built into the annual wage/salary, is holiday pay at lesser amounts than the payment for a normal working week at the base calculation level. Legislation must be revised to prevent this abuse.

65. REDUNDANCY

This Congress calls upon the GMB to campaign for improvement in the redundancy payments to those who are made redundant. The minimum payment should be increased substantially to reflect the trauma and upset that redundancy causes to employees and their families.

We are further concerned that the price to employers for making employees redundant in the UK is still too low. Redundancy should be a matter of last resort, not an easy way to restructure at minimum cost. We ask the GMB to use it's influence with the Government Department for Enterprise and Work and the TUC to lobby for new or improved legislation to force employers to examine other alternatives to redundancy to ensure that they meet their full obligations to their employees. We are concerned that in the present climate, employers are using the excuse of an 'economic downturn' in order to restructure organisations and cast off the employees, expecting the Government and community to pick up the wider costs.

70. CAMPAIGN FOR STATUTORY VOLUNTEER'S RIGHTS

This Congress notes that according to Volunteering England, "*22 million adults are involved in formal volunteering each year*", and "*90 million hours of formal voluntary work takes place each week*". Also, Volunteers' Week states that "*In 2007 73% of all adults in England and Wales volunteered (formally or informally).*"

So many adults in the UK are volunteering their time, skills, and energy to make the country a better place, yet at present they can be 'hired and fired' without any statutory rights.

Congress agrees that the GMB should launch a campaign for volunteers to be afforded some core rights in recognition of their contribution to society.

At present, there are no legal requirements for organisations to provide volunteers with Grievance and Disciplinary Procedures or Terms and Conditions of Volunteering. The current legal standpoint is very much "*It's their club, and their rules, they can do what they like*" – advice obtained from the GMB/Thompson's Legal Advice Line in July 2008.

These are fundamental rights that all employees, paid or unpaid (volunteers) should be afforded. Furthermore, we believe that this should be particularly the case for volunteers since they are not being rewarded for their time and efforts in the same way as paid employees are.

Congress recognises the ever developing technology and subsequent cheaper availability of CCTV monitoring equipment together with satellite tracking technology that is available to employers, and is consequently concerned that such readily available subversive surveillance equipment is becoming more and more prominent in the workplace.

Therefore, Congress calls upon the GMB as a workplace Trade Union to use its expertise in developing a generic workplace policy for the controlled use and guidance on the appropriate operation of such technology in the workplace, in the hope that local representatives of the GMB can make use of and persuade individual employers to adopt.

Congress also calls upon the GMB to produce a leaflet or booklet outlining a simplified version of the law around the use of such surveillance both satellite tracking and CCTV, and how it can be used or dismissed in regard to employment law.

Congress also calls for the GMB to be more proactive in fighting and speaking out against the use of such electronic surveillance equipment, with its aim of putting a stay on the ever increasing obsession that powers in authority have in making ever more use of such CCTV monitoring of everyday surveillance which is a particular scourge of the British citizen.

75. UNDOCUMENTED MIGRANT WORKERS

The GMB Congress 2009 believes that the work registration scheme and civil penalty regime introduced on 29th February 2008 has had serious impacts on employment rights of undocumented migrant workers and may have negative repercussions for their equal access to employment in today's job market. The increased duties for employers, in monitoring the immigration status of their workers, has thus far had negative impacts on a wide range of migrant workers, including increased discrimination and exploitation.

The work of the Gangmaster Licensing Authority (GLA) in the agriculture, forestry, horticulture, shellfish gathering and food processing industries focuses on employment inspections with a view to enforcing workplace standards – an approach which we believe may produce more constructive improvements in working conditions than workplace raids by UKBA officials.

We believe that the civil penalty regime enforcement measure implemented by UKBA will not in any way support a resolution to the position of the 500,000 undocumented migrants estimated to be resident in the UK, many of whom are working covertly. The losers are both workers and employers in terms of fines to employers and workers losing jobs.

The merits of a one-off amnesty and/or sustainable regularisation to assist workers with documentation and period of grace should be given strong consideration, but this must be done within the context of wider Government efforts to enforce standards governing working conditions. ©6 93. SUPPORT MANUFACTURING NOT FAILED BANKS

Congress, during the 1980's and early 1990's, the Tories tried to destroy British manufacturing and the towns manufacturing firms were based in.

Many towns however survived and maintained their industrial base. One example of this is Rotherham. However, in the space of 10 days in January 2009 it was announced that Burberry would be closing its factory in the town and Corus announced 718 job losses from its Rotherham plants. These are victims of a recession caused by the banking industry.

Whilst workers in manufacturing are punished by losing their jobs, the banks have been given billions of pounds by the Government. Instead of using this money to give credit to companies, it has been sitting in bank vaults or used to pay massive bonuses to chief executives of the banks – a reward for failing in their jobs.

Whilst the Dutch Government is guaranteeing the wages of Dutch Corus workers, Britain's Labour Government is failing to support the very people who are its core supporters.

Congress we call upon you to lobby government to stop capping local authorities and start investing money into them we are told that there is no extra money available but we are expected to carry on providing services for less and less. ©9 105. PUBLIC SECTOR FINANCE

We call upon congress to ask the GMB to call on the Government to increase the funding available to Local Government from Central Government Funds, and reduce the pressure on them to make continual savings, as local services are suffering an increasing detriment every year. This is likely to lead to an irreversible lowering of the quality of services if continued and has already put a great deal of stress on GMB members who are bearing the brunt of year on year savings.

The pressure on Local Government to make year on year savings at the level set by the present Government is not sustainable. Although efficiencies are possible, and even necessary in some cases, a continued reduction in funding at this level will result in the collapse of many public services. As the banks are being bailed out with £50+ billion local councils are struggling to make ends meet. This is leading to many Local Authorities looking to the private sector to help increase their funding. This does not make sense, why is the Government helping out the financial sector and leaving the public sector to languish and seek help from those who may well be banging on the chancellor's door for a bailout as the economic turmoil deepens.

As the initiative to bring us out of the current crisis is to increase spending, we believe this should be directed at the Public Sector as well as the Private Sector. We believe that the Prime Minister should help to support essential Public Services, who are making increasing cuts, over and above those from the Private Sector who may have either borrowed or lent beyond their means. As the bank are now being almost nationalised it is madness that a continual reduction in grants to the public sector is driving them to seek private finance to support essential services.

106. ECONOMIC CLIMATE IMPACT ON PUBLIC SERVICES

With the increase in outsourcing of public services and the potential mass job losses many local council's appear to have overlooked the additional amount of people needing to use public services when faced with difficulties over their finances and housing status. The jobs being shed are across the council's without any apparent thought for future need.

For example someone losing their job may need information on benefits from the council's money welfare team and/or may face eviction therefore may need advice on homelessness and social housing. This may impact upon the whole family and the children may need support at school with access to free school meals and/or counselling. Depending upon the personalities involved it may lead to one partner seeking advice from a domestic abuse counsellor or even in extreme cases seeking refuge.

This is not hypothetical but confirmed through evidence and statistics in previous time of economic difficulties. The impact upon the individual and families can be devastating and the local council will be part of the process in enabling people to find a balance or responding immediately.

The concern we have is that by dismantling many of our local services we will not be prepared to respond as and when required. Our members in local government are being expected to take on more work because of less staff and unable to cope. Who may well find themselves being the subject of punitive sickness absence sanctions and ultimately out of work.

We have to have the investment in local government services now in order to support and provide the services needed during this very difficult period.

The Government need to be investing in 'real terms' in local government services and not just 'sound bite' for public. Giving money to private organisation that have grown fat on money which should have gone to direct public services to support our members in delivery good quality services. But reality is the money has been creamed off at the top.

We ask congress to support this motion.

EP 107. LOCAL GOVERNMENT TRANSFORMATION

Local Councils are being targeted by the latest central government initiative called 'transformation'. However, it is packaged it results in one thing – budget cuts resulting in our members losing their jobs. For example in Bristol City Council they have announced some 350 potential job losses – this is on top of outsourcing of services and employees having to leave their chosen area of work and get redeployed into jobs either on lower pay or placed in jobs outside of their chosen area of work.

This Government initiative promotes local councils to 'pool' their resources in setting up 'partnering arrangements' with outside organisation – window dressing for selling off our members to the private sector.

Recent evidence of this occurred in what Bristol called 'Excellence for All' in the education division of the Children and Young People Services Department. The intention was to parcel up 18 education services and put them into the private sector to manage. The rationale for this was because the school wanted to have 'one point of contact' and the Education Services needed leadership. First the schools had one point of contact – the Council and CYPS and secondly the GMB successfully publicly challenged the fact if lack leadership was an issue change the management and leave the 500 or so staff with the council. Thankfully Bristol is now looking for a new Head of CYPS and is now engaging with staff to identify ways to improve the service within the Council.

The threat to local government workers through the transformation initiative is very real and very high.

We therefore ask congress to support the opposition of this mass wholesale of job losses.

Congress recognizes that the GMB has consistently campaigned against the Government's use of the Public Finance Initiative (PFI) to finance Public Works and Public Investment Programs.

Our opposition has been based upon our convictions that PFI is not effective or efficient; that it delivers poor quality and is by far the most expensive option.

Congress further recognizes that as the UK stands on the abyss of economic destruction, due to the reckless speculation of Banks and Investment Institutions, the time has come for the Government to abandon it's misguided faith in "The City" to deliver a pizza, without a £billion bonus, let alone best value public investment.

Given that the urgent need to stimulate the UK economy and the evident fact that that will not be financed by private capital, Congress calls on the Government to come clear; to declare that the PFI era is no more and that the UK's economic recovery will only be delivered by public works and public investment.

Many more public sector organizations could be taking advantage of the benefits that apprenticeships bring, as a way of unlocking talent within their local communities and ensuring that they have a workforce equipped with the skills it needs for today and tomorrow.

There are economic and social reasons for the public sector to employ apprentices and we ask congress to lobby the government to ensure that our public sector employers take up this responsibility and secure future employment and skills for our young adults of the future.

Many Teaching Assistants who have special needs skills continue to be employed via the funding for a specific child and when that child changes school face either reduction in hours or termination of employment.

We even have one example in the South Western Region where a school which has overspent is now proposing to cut the Teaching Assistant's hours and down grade them through the job evaluation process!

This Congress has concerns that school support staff are fulfilling the role of the class room teachers, i.e. Higher Learning Teaching Assistants (HLTA), in one case an HLTA on a 37 hour working week, 90% of a week with no teacher support at all.

Also HLTA's are planning classes without teacher input.

HLTA's are teaching pupils for a qualification in GCSE, that they themselves have not got GCSE's.

HLTA's are taking classes with LSA's (Learning Support Assistant) and no teacher support.

Teachers are leaving school employment only then to be replaced by an HLTA with no attempt at replacing the teacher or using supply teachers.

The Workforce Agreement Monitoring (WAMG) has in force guidelines, but we feel that there are grey areas that need urgent attention, locally and national i.e. what is a group of pupils, and what is a class. One Head teacher insists that a group is up to 28 pupils.

Also we would like to see listed the amount of hours laid down on how many hours per week support staff are to cover a class without teacher support.

To conclude, we feel that support staff are being abused purely for savings on School budgets and the knock on effects are the pupil's education and indeed the support staff fulfilling roles that they are not trained or paid for.

123. LOCAL AUTHORITY CARE HOMES

In the current economic climate a number of private care homes across the South Western Region are facing closure. With many local authorities in the process of closing their residential care homes how will this impact upon our elderly population?

We already know in the UK we have and will have in the future a growing aging population. The Government proposal is that we should all stay in our own homes. Sounds good in theory but what about in practice? Many home care services are provided by the private sector who need to make a profit rather than a not for profit services provided by local authorities.

One council in the South Western Region has put forward it's 'Futures' plan over the next four years whereby many of their elderly person's homes will close and a third will be refurbished from the money generated from the sale of the other homes. The intention is that many of the older people will be placed in private sector residential care provision. Taking away their choice of local authority home v private sector home.

Obviously there is a problem with land prices plummeting and whether or not they will have the required resources to carry this through. In the meantime some 500 residential care workers are in a state of limbo not knowing what will happen about their 'future'. This is even worse (if it can be) as it is a Labour Council who is hell bent on taking away local authority residential care provision!

We therefore call upon Congress to continue to support the campaign to keep residential care services in house.

EP 125. DILUTION OF HOUSING CARETAKING SERVICES

Local Authorities are looking at ways of reducing costs and yet again they have turned their attention to the lowest paid workers at the front line. In Bristol they are coming to the end of a three year restructure of Housing Caretaking Services. They have had project managers and

senior management working on this restructure. The outcome has been to minimise the role of the Housing Caretaker – to take away in many cases their residential status and refer them to cleaners without acknowledging the fact their role covers far more than cleaning. They have chosen to ignore the fact they are the first point of call with tenants with issues – especially if English is not their first language; if residential they act as a deterrent against anti social behaviour and for the older tenants they are seen as a support if and when required.

All of this is ignored and they are now facing a reduction in their pay.

However, you look at this, it can only be seen as a direct attack on front line workers who are low paid and do a worthwhile job in making a difference to many people's lives. The tenants recognise this but the local authority appears not to want to acknowledge all the good work that has and is being done by this workforce.

Yet again the concern is about the threat of outsourcing of this service and the real motive behind the restructure. We understand this is not just a local issue but one which affects all caretaking services across the country. Again the mass dilution of this service need to be highlighted and brought to the public's attention now rather than wait for it to have been dismantled.

We ask congress to support this motion.

Given the above Congress demands that the UK Government seeks to establish a new Social and Financial Global Regulatory Framework.

That will safeguard the interests of the many not just the few.

131. CREDIT CRISIS AND CITY BONUSES

This Congress recognizes that the Labour Government was right to nationalize Northern Rock and Bradford and Bingley banks and was also right to take a majority shares in other UK banks such as the Royal Bank of Scotland as a way of protecting savers and as many jobs as possible. However, this alone does not address the financial crisis that was caused through a culture of greed and dishonesty in the city of London. Financial institutions over the last 20 years have paid bonuses to senior managers way out of proportion to the work that they have produced for the banks and the UK economy. These high bonuses have even been paid after the banks have failed.

This Congress believes that the banks should now remain in government hands and a new regime of lending that benefits ordinary people and UK companies should be the order of the day. The government should set the maximum salaries of the directors. Bonuses should be of a suitable size that ordinary people can identify with them and be paid on merit and not automatically.

This Congress also believes that recipients of these bonuses should make a contribution to the rest of society. Therefore the Chancellor should introduce a tax rate of 50% on all bonuses above £50,000 and a tax rate of 80% on all bonuses above £150,000.

In the expectation that the share price can be forced down and then bought back at a lower price then sold at thereby making a profit, is immoral and dangerous to the health of the country.

Immense damage can be done to sound companies by this practice, it puts jobs at risk, contributes to firms closing and jobs being lost, leading to untold misery and hardship for the workers thrown out of work. All so profiteers can make money. Congress therefore calls on the Government of the day to make such activity illegal, thereby protecting the interests of the majority against the greed of the few.

The financial industry always claims to be responsible lenders, but the action of the credit card companies are at odds with this mantra. When credit card companies find out that a customer is getting into financial difficulties, they immediately increase the interest rate on an individual's credit card (for example from 19.9% on a debt of £4000 to 36.6% with two weeks notice, customer at MBNA). This is not only ethically wrong, but again proves the greed of the financial sector. This Congress notes that the economic system we live under, based on greed and deception, has once again failed and as a result hundreds of thousands of building workers have been, are being and will be, thrown out of work. Many millions in other industries will face the same fate. Families are facing more and more repossessions and many more pensioners are facing death as a result of food and fuel costs being far too expensive for the State Pension to cope with.

Greedy bankers, landlords and financiers have made a bad situation worse by extending credit, putting off the recession but guaranteeing that it would be longer and deeper when it arrived.

Congress therefore calls on the Labour Government to:

- i) Support a massive Council house building programme, to put builders back to work and provide alternative, affordable accommodation.
- ii) Ensure that their promise to re-link the State Pension to earnings in 2012 is adhered to as a minimum and that if possible this date is brought forward.
- iii) Starts training publicly employed and directly accountable regulators and enforcers to ensure that in future, if Government money is handed over to the Banks and other financial institutions effectively nationalising them, they will be run for the overwhelming majority of people in this Country.

157. GMB SPONSORED MP'S

Congress notes the recent news of the scandal that 4 Labour Lords had worked as paid consultants for private companies. News which raises the question where does their loyalty lay? – with the Labour movement or their pocket?

The news reinforces our belief that the only way forward is to abolish the House of Lords, and replace it by an elected second chamber. Further, this scandal enforces our belief that all our sponsored Members of Parliament should hold only two loyalties, first to their constituents and secondly to the GMB. They should not work for any other organisation as paid consultants. If they do so then we should not sponsor them.

X 159. DISAFFILIATION FROM THE LABOUR PARTY

This annual Congress of the GMB notes that campaigning is a key part of the organising agenda of this Union, and recognises the need for the existence of a political fund to protect the Union when we fund campaigns that may be seen as in pursuit of political objectives.

This Congress also notes that the GMB has strong links with the Labour Party.

However, this Congress believes that New Labour's acceptance of the shibboleths of free market capitalism, and its' support for the interests of "fat cat" bosses and the banks, means it can no longer claim to be the party defending worker or union interests. Remploy is a prime example of Government ministers not listening to GMB.

This Congress restates its support for a political fund. But we believe that the fund should be spent in the pursuance of GMB members' welfare through our effective campaign work, and not diverted to a political party.

To this end we agree to end our affiliation with the Labour Party.

Congress therefore instructs the CEC and General Secretary to initiate a campaign for changes in law to prohibit such representatives from

167. UNITE AGAINST FASCISM

This Congress notes:

1. The BNP's policies of hate and division threaten the freedom and safety of those would see annihilated – Jews, black people, trade unionists, Muslims and all ethnic minorities, gays and lesbians, disabled people and anybody who stands for a democratic society.
2. That the fascist BNP through its acolytes supports the Redwatch website which contains photos, names and addresses and personal details of anti-fascists and those opposing the BNP, along with threats of violence against them. Some of those targeted by Redwatch have been attacked and intimidated.
3. That the full membership list for the fascist BNP was released on the web and this list identifies that some of the fascist BNP members are teachers, lecturers, prison officers, serving police officers, nurses and other public sector workers.
4. The BNP now has 57 Councillors across Britain and in the May 2008 elections gained a seat on the London Assembly polling 130,174 votes-5.33%- just crossing the 5% hurdle needed to get elected.
5. That Unite Against Fascism has called for there to be no place for fascist and racist BNP members in public services and that they should be sacked.

This Congress believes:

1. That it is in the public interest to identify BNP members if we are to prevent abuses. Not least that these people may have access to sensitive information and are in positions of influence.
2. It is important that every BNP member is identified because of the nature of this organisation that espouses the politics of race hate and division and targets communities with its vicious race hatred.
3. It is not acceptable to have fascists who deny the Holocaust and want to see a race war teaching in our schools, working in the police force or in the prison service and there is no place for them in public services.
4. That racism divides workers and has no place within the trade union movement. Trade union organisations that have expelled fascists from membership are to be congratulated.

This Congress resolves:

1. To campaign for the removal of BNP members in public services.
2. To affiliate to Unite Against Fascism and to send a delegate to its steering committee.
3. To support Unite Against Fascism's campaign to Stop the Fascist BNP in forthcoming elections.
4. To make a substantial donation to Unite Against Fascism
5. To circulate Unite Against Fascism leaflets and other materials and co-operate with other trade unions and organisations in providing resources and support.

EUROPEAN UNION

168. EUROPE

Congress urges the GMB leadership to campaign with the wider labour movement to restrain the liberalising agenda of the European Commission and its merciless doctrine of de-regulation, the free market, unfettered capitalism and the obsession with additional competition. It must be recognised that the extremes of competitive forces create an environment where it is often impossible for a good quality business, offering quality service and offering good employment, to exist. Its policies create a 'race to the bottom' mentality and agenda which are symptomatic of the economic disaster in which we all now find ourselves. The labour movement must force government to end the neo liberalism economic policy and principles.

173. POLICE CAUTIONS WITH SECURITY GUARD ON DUTY

This GMB Congress is concerned that police are not giving a full explanation when issuing cautions. Police cautions are labelled by most as little more than a slap on the wrist; their use by police means an offender, while admitting their guilt in minor offences can avoid having to appear in court where they risk far heavier penalties. A caution may count as a criminal record, likely to end in a fine, or community service. In most cases this may be a simple solution to overcome the crowded Criminal Justice system or custodial prison terms. On other occasions Security Officers employed in public places have been cautioned due to altercation with members of the public whilst in the workplace, thus resulting in caution and penalty fines. This may impact on their employment status particularly if they are working for security providers or at sensitive site locations. Therefore it is our belief that police Officers should fully explain the implications before issue of a caution and that it should be given away from the workplace environment and with time given to obtain legal advice when the individual's employment is in the security industry, as approved by SIA Officer.

We ask that the GMB Union to issue guidance to GMB members, plus contact telephone numbers for lawyers, to seek advice if required.

This Congress recognises the importance of the Post Office to local communities not only in rural areas but also in suburban areas of major towns and cities. Research has shown that having a local Post Office helps support up to sixteen other retail outlets in small town and village centres.

This Congress believes that the recent bout of Post Office closures was wrong and will be the death sentence for a number of rural villages and suburban shopping centres. We also believe that it is wrong to expect the Post Office to make a profit and provide a universal service while allowing main work streams to be put in the hands of private competitors. These competitors

are able to compete with the Post Office; by not recognising trade unions, not providing pensions and only paying rates of pay just above the minimum wage.

At the beginning of the year, the government published the Hooper Report. This report recognised that the contract for final delivery of letters of its competitors has been set too low. It also suggested that the Post Office should look for a private sector partner to share in its workload. This Congress believes this would amount to backdoor privatization.

This Congress calls on the GMB to support the CWU trade union's campaign to keep the Post Office in the public sector and oppose privatisation by the front or back door. The Post Office should be allowed to compete on fair terms with the private sector by being able to offer high quality services to the public across the whole of the UK at a fair price.

Congress, in the Labour Party Manifesto 2005, we were told of the Party's driving force for innovation and competition. The Policy also says "The Party's ambition is to see a publicly owned Royal Mail, fully restored to good health providing excellent service and giving employees rewarding employment". How rewarded did employees of Royal Mail feel when they learned part of their service was to be privatised or sold off to be blunt.

This Congress notes that the Labour Party Conference 2008 supported a view of a wholly publicly owned, integrated Royal Mail group.

183. SAFETY, SEX WORK AND HUMAN RIGHTS

Congress calls for policies on the sex industry to prioritise the safety and rights of those who work in the sex industry. Policy must always be based on the meaningful inclusion of those who will be most affected.

"Criminalisation...is responsible for the lack of employment rights, casualisation, stigma, widespread violence, exploitation and abuse in the global sex industry". Increased criminalisation of workplaces and clients will worsen the already vulnerable situation of sex workers, and do nothing to address the vulnerabilities of those trafficked into the sex industry.

We absolutely oppose all forms of trafficking and forced labour and call upon the government to recognise that the only effective way to tackle these abuses when they occur in the sex industry is to apply the measures which are known to improve the situation of migrant workers in other industries. Trafficked persons are not found in sectors where workers are organised and where labour standards are monitored and enforced.

As trades unionists we know the solution to exploitation and abuses within any industry is the promotion of full human, civil and labour rights for those working within it. We call for sex workers' entitlement to these rights to be recognised and respected within the union movement.

This is urgently required to give everyone the opportunity for a decent home and in the current recessionary times will give a massive boost to the construction industry, which will filter benefit throughout the wider economy. In carrying out this work, there must be an equal priority in bringing existing housing stock up to decent living standards. There must also be a strong commitment to the environment, to the preservation of green space, protection to historical and architecturally important buildings, protection to the visual character of areas and with reasonable regard to existing home owners or residents in planning districts. There should be a priority to genuine brownfield sites and a reversal of the government policy, classifying gardens as brownfield.

Tenants are being misled by local government officers and outside organisations with a financial interest to opt out of the local council structure and set up their own structure being in charge of day to running of their housing, grounds maintenance and caretaking services. Yet again this is another example of the erosion of our public services and our members in these areas of work losing their status of local council workers and being managed by a community group and/or voluntary/private sector organisation.

194. WORK ENVIRONMENTS IN COMMUNITY NHS AND SOCIAL WORK

Congress, significant increases in investment are required to be made by the UK and devolved Parliaments to improve the built environments to allow the required and proposed expansion of community care staff in health and social services to take place.

For many years there has been an intention to radically redesign acute and primary care services to enable the care to be provided as close to the patient's home as possible. Premises are cramped and lacking in facilities, many of which have been in use since the earliest days of the NHS.

In an effort to remain within tight budgets, Health Boards and Local Authorities have gone to great lengths to maximise the potential of traditional, environmentally unfriendly buildings, refurbishing and renovating where possible. For many of these buildings the point has come whereby, rooms have become cramped, too many staff being expected to function within them. The time has come whereby, staff should be properly resourced, and advantage taken of cheaper land prices and high unemployment in the building industry due to the economic downturn, thus providing much needed work in the short-term, and appropriate facilities for the 21st Century.

Congress therefore calls on the GMB to lobby Government.

195. NEW LABOUR'S HEALTH PLAN – UNDERMINES FOUNDING PRINCIPLES OF NHS

Congress is deeply disturbed that New Labour's plan to give patients money to buy their own health care is diametrically opposed to, and fundamentally undermines the founding principles of the NHS.

Congress recognises that patients should have a right of input into the treatment that they may receive, however, giving people money and then asking them to choose and determine what is the most effective treatment to pursue, is fraught with danger to the health and well being of the lay person.

Congress agrees that giving patients vouchers to pursue health care may well sound the end of the NHS as we know it and could eventually create a two tier NHS no longer free at the point of entry to all.

Congress condemns the recent outbreak of war in Gaza, which has only made the resolution to the problems in the Middle East worse.

Whilst it condemns the use of rockets fired into Israel by Hamas militants it feels the reaction by the Israeli Government, to declare all out war on the people of Gaza, was overkill and totally unnecessary. The slaughter of so many innocent men, women and children (over 300 children were killed) was an outrage and can never be justified. The war has not only killed 1800 but has wrecked homes, schools and much of the infrastructure of Gaza.

Further Congress notes that the United Nations is now stating that many of the acts of war could be classified as "War Crimes" we would therefore support them in their inquiries. Should these inquiries find guilty parties then they should be charged with War Crimes under International Law.

Congress, Over one thousand three hundred Palestinians have been killed during Israel's military offensive in Gaza during January. Almost four thousand have been injured, some with the most appalling injuries, many amputations and horrific burns, many of these civilians and most of them children. There is evidence from many humanitarian organisations including Amnesty International, the Red Cross and the United Nations that war crimes have been committed including the use of white phosphorous in built up areas. Gaza had already been under siege for 18 months before the bombardment and invasion. It was little more than an open prison, with Palestinians being under collective punishment with limited public services including electricity water, sewerage and severe shortages of food and medicines.

The people of the West Bank suffer tremendously. There will be no peace for anyone in the Region if there is no Justice. Israel has to abide by the countless UN resolutions and rulings by International bodies like the International Court of Justice. We campaigned against fascism, we campaign against racism and we campaigned against Apartheid it would be morally reprehensible if we now did nothing, we would be colluding with injustice.

The GMB will campaign to:

1. Continue working with the Palestine Solidarity Campaign and to actively campaign within the Regions for the support of this organisation.
2. Send representatives from GMB on a PSC Trade Union Delegation to gain information from the PGFTU.

3. To demand the British government ends arms sales to Israel noting the sale of more than £18.8 million worth of British arms to Israel in 2008, up from £7.5 million in 2007.
4. To call for the immediate suspension of the EU-Israel Agreement providing preferential trade facilities to Israel.
5. To Lobby the UK Government to work in the international area to ensure that Israel is brought to justice.

Congress holds that the special provisions which allow access to British markets of goods produced/grown by Israeli settlers on illegally occupied Palestinian Land (recognised as such by the British Government under international laws) should be abolished and instructs the Central Executive Council and General Secretary to pursue such a change in those provisions through the lobbying of MPs and MEP's sponsored by the Union.

226. BANKS & ARMS TRADE

Congress notes that five of the biggest U.K high street banks are using our money to fund companies that sell arms used against civilians in war across the world, including the conflict in Iraq and Afghanistan. They are financing an industry that sells arms to countries committing human rights abuses such as Israel, Colombia, and Saudi Arabia. We believe banks must be made accountable for their actions around the world.

This conference instructs the N.E.C to call on this government to ensure that all banks are made to publish the full details of their loans, holdings and other banking services to the arms trade.

"2 Within five years of being appointed, and at a time decided by the regional secretary and the regional committee and approved by the Central Executive Council, all organisers will take part in an election in line with rule 17f. Note Congress calls on the CEC to bring forward rule changes to eliminate the requirement of Organisers to have to face elections within five years of their appointment. This rule is anachronistic, not in line with modern employment practices and could potentially lead to the GMB facing claims at Employment Tribunals for unfair dismissal.

Rule 65 Political fund

1 The objects of the GMB shall include the furtherance of the political objects to which Section 72 of the Trade Union and Labour Relations (Consolidation) Act 1992, applies, that is to say, the expenditure of money-

- a) on any contribution to the funds of, or on the payment of any expenses incurred directly or indirectly by, a political party;
- b) on the provision of any service or property for use by or on behalf of any political party;
- c) in connection with the registration of electors, the candidature of any person, the selection of any candidate or the holding of any ballot by the Union in connection with any election to a political office;
- d) on the maintenance of any holder of a political office;
- e) on the holding of any conference or meeting by or on behalf of a political party or of any other meeting the main purpose of which is the transaction of business in connection with a political party;
- f) on the production, publication or distribution of any literature, document, film, sound recording or advertisement, the main purpose of which is to persuade people to vote for a political party or candidate or to persuade them not to vote for a political party or candidate.

Where a person attends a conference or meeting as a delegate or otherwise as a participator in the proceedings, any expenditure incurred in connection with his/her attendance as such shall, for the purposes of paragraph (e) above, be taken to be expenditure incurred on the holding of the conference or meeting.

In determining, for the purposes of paragraphs (a) to (f) above, whether the Union has incurred expenditure of a kind mentioned in those paragraphs no account shall be taken of the ordinary administrative expenses of the Union.

In these objects -

"candidate" means a candidate for election to a political office and includes a prospective candidate;

"contribution", in relation to the funds of a political party, includes any fee payable for affiliation to, or membership of, the party and any loan made to the party;

"electors" means electors at any election to a political office;

"film" includes any record, however made, of a sequence of visual images, which is capable of being used as means of showing that sequence as a moving picture;

"local authority" means a local authority within the meaning of section 270 of the Local Government Act 1972 or section 235 of the Local Government (Scotland) Act 1973; and

"political office" means the office of member of Parliament, member of the European Parliament or member of a local authority or any position within a political party.

2 Any payments in the furtherance of such political objects shall be made out of a separate fund (hereinafter called the "Political Fund" of the Union).

3 As soon as is practicable after the passing of a resolution approving the furtherance of such political objects as an object of the Union the Central Executive Council shall ensure that a notice in the following form is given to all members of the Union in accordance with this rule:

Trade Union and Labour Relations (Consolidation) Act 1992

A resolution approving the furtherance of political objects within the meaning of the above Act as an object of the Union has been adopted by a ballot under the Act. Any payments in the furtherance of any of those objects will be made out of a separate fund, the political fund of the Union but every member of the Union has a right to be exempt from contributing to that fund. A form of exemption notice can be obtained by or on behalf of any member either by application at, or by post from, the Head Office or any Branch Office of the Union or from the Certification Office for Trade Unions and Employers' Associations, Brandon House, 180 Borough High Street, London SE1 1LW.

This form, when filled in, or a written request in a form to the like effect, should be handed or sent to the Secretary of the Branch to which the member belongs.

The notice shall be published to members by such methods as are customarily used by the Union to publish notices of importance to members and shall include the following minimum requirements. The notice shall be published in the Union's main journal which is circulated to members. A copy of the notice shall be posted up and kept up for at least 12 months in a conspicuous place, accessible to members, at the office or meeting place of each branch of the Union. The Secretary of each branch shall also take steps to secure that every member of the branch, so far as is reasonably practicable, receives a copy of the notice, and shall supply a copy to any member on request. The Central Executive Council shall provide the Secretary of each branch with a number of copies of the notice sufficient for these purposes.

4 Any member of the Union may at any time give notice on the form of exemption notice specified in Rule 5 or by a written request in a form to the like effect, that he objects to contribute to the Political Fund. A form of exemption notice may be obtained by, or on behalf of any member either by application at, or by post from, the Head Office or any Branch Office of the Union or at, or by post from, the Head Office or any Branch Office of the Union or from the Certification Office for Trade Unions and Employers' Associations, Brandon House, 180 Borough High Street, London SE1 1LW.

5 The form of exemption notice shall be as follows:

GMB

POLITICAL FUND (EXEMPTION NOTICE)

I HEREBY give notice that I object to contribute to the Political Fund of GMB, and am in consequence exempt, in the manner provided by Chapter VI of the Trade and Labour Relations (Consolidation) Act, 1992, from contributing to that fund.

Signature.....Name of Branch.....

Address.....

Date.....day of.....19.....

The Central Executive Council shall provide a sufficient number of such forms at the Head Office and at each Branch Office of the Union for such members of the Union as require them; and a copy of such form shall be delivered either by the Central Executive Council or by the Secretary of any Branch to any member on his/her request, or on a request made on his/her behalf either personally or by post.

6 Any member of the Union may at any time give notice on such form of exemption notice or on a form to the like effect that he/she objects to contribute to the Political Fund of the Union. Such notice shall be sent to the Secretary of the Branch to which the member belongs, and, on receiving it, the Secretary shall send an acknowledgement of its receipt to the member at the address appearing upon the notice, and shall inform the General Secretary of the name and address of the member.

7 On giving such notice, a member of the Union shall be exempt, so long as his/her notice is not withdrawn, from contributing to the Political Fund of the Union as from the first day of January next after the notice is given or, in the case of a notice given within one month after the notice given to members under rule 3 or after the date on which a new member admitted to the Union is supplied with a copy of these Rules under Clause 13 hereof, as from the date on which the member's notice is given.

8 The Central Executive Council shall give effect to the exemption of members to contribute to the Political Fund of the Union by relieving any members who are exempt from the payment of part of any periodical contributions required from the members of the Union towards the expenses of the Union as hereinafter provided and such relief shall be given as far as possible to all members who are exempt on the occasion of the same periodical payment.

For the purpose of enabling each member of the Union to know as respects any such periodical contribution what portion, if any, of the sum payable by him/her, is a contribution to the Political Fund, it is hereby provided that the annual contribution to the Political Fund of the Union shall, for Grade 1 members be the sum of £7.50, for Grade 2 members the sum of £4.14, and for members paying

the reduced rate under Rule 49 the sum of 15p. The contribution to the Political Fund shall be payable in three equal instalments on the first contribution nights of the quarters ending March, September and December.

Any member who is exempt as aforesaid shall be relieved from payment of the said sum of £7.50, £4.14 and 15p respectively. The Central Executive Council shall have power to suspend at any time payment to the Political Fund for any quarter or quarters, in which event, that portion of the member's contribution allocated to political purposes shall be credited to the Central Fund.

[Note: New rates effective 1 October 2008]

9 A member who is exempt from the obligation to contribute to the Political Fund of the Union shall not be excluded from any benefits of the Union, or placed in any respect either directly or indirectly under any disability or disadvantage as compared with other members of the Union (except in relation to the control or management of the Political Fund of the Union) by reason of his/her being so exempt.

10 Contribution to the Political Fund of the Union shall not be made a condition for admission to the Union.

11 If any member alleges that he/she is aggrieved by a breach of any of the rules for the political fund, being a rule or rules made pursuant to Section 82 of the Act, he/she may complain to the Certification Officer, and the Certification Officer, after giving the complainant and any representative of the organisation an opportunity of being heard, may, if the Certification Officer considers that such a breach has been committed, make such order for remedying the breach as the Certification Officer thinks just in the circumstances. Any such order of the Certification Officer may, subject to the right of appeal provided by section 95 of the Act, be enforced in the manner provided for in section 82(4) of the Act

12 Any member may withdraw his/her notice of exemption on notifying his/her desire to that effect to the Secretary of his/her Branch, who shall thereupon send such member an acknowledgement of receipt of the notification and inform the General Secretary of the name and address of the member so withdrawing.

13 The Central Executive Council shall cause to be printed a number of copies of these Rules for the Political Fund of the Union, having at the end a copy of the certificate of approval sufficient for the members of the Union and a further number for new members and shall send to the Secretary of each Branch a number of copies sufficient for the members of the Branch. The Secretary of each Branch shall take steps to secure that every member of the Branch, so far as practicable, receives a copy of these Rules, and shall supply a copy to any member at his/her request. A copy thereof shall also be supplied forthwith to every new member on his/her admission to the Union.

14 A return in respect to the Political Fund of the Union shall be transmitted by the Union to the Certification Officer for Trade Unions and Employers' Associations before the first day of June in every year prepared and made up to such date and in such form and comprising such particulars as the Certification Officer may from time to time require, and every member of the Union shall be entitled to receive a copy of such return, on application to the Treasurer or Secretary of the Union, without making any payment for the same.

11. NATIONAL STRATEGY FOR MIGRANT WORKERS (Southern Region)
12. NATIONAL MIGRANT WORKERS' STRATEGY (Southern Region)

NATIONAL MIGRANT WORKERS RECRUITMENT & ORGANISING STRATEGY

The GMB has been the leading trade union when it comes to recruiting, organising and protecting migrant workers. The GMB has had a long held belief that in order to protect UK workers' terms and conditions we must recruit and organise the migrant workers who are exploited into accepting poor wages and even poorer employment rights in the workplace.

As Britain's labour market continues to become more deregulated, leading to ever more exploitation of both indigenous and migrant workers, there is an urgent requirement for the GMB to tackle this increasing exploitation, by re-emphasising its commitment to a national organising strategy, piloted by some regions of our union in response to the GMB national strategy laid down in 2006/7.

Congress asks that this is now implemented and carried out encompassing migrant workers and other indigenous workers resourced nationally in all regions of our union. This will enable the GMB to continue to be the leading trades union in the recruiting, organising and protection of migrant workers.

Congress notes that in some regions migrant worker recruitment and organising strategies have been successful in recruiting a large number of new members and that this strategy is the best way to address a growing need for migrant worker protection in this country. These migrant worker projects have been carried out using minimum resources from GMB funds as they have been financed by way of Government and TUC funding and the Learning Works for All Fund. Migrant workers have been trained to run the projects themselves with assistance and guidance from their regions.

Congress agrees that in the coming years there are going to be increasing amounts of migrant workers entering the UK. By offering a way into English language courses and numeracy and literacy courses in partnership with local colleges implementing education strategy, and by offering representation in the workplace the Southern Region now has a large Migrant Workers Branch as well as Migrant Workers Forum run by migrant workers. Recruitment of migrant workers has been highly successful.

So as to create a GMB nationwide focused National Migrant Strategy, this Congress therefore seeks the adoption, nationally, of the Southern Region's successful Migrant Workers Recruitment and Organising Strategy. Having been developed with the GMB's National Organising Strategy in mind, has successfully sought to recognise and understand the issues surrounding migrant workers, both in the workplace and the wider community and has organised, successfully, with migrant workers in those two areas.

FINAL SALARY PENSION SCHEMES

Congress is well aware of the present tough economic climate the UK and the global economy is experiencing and many companies are now considering, or have already made a decision, to close their final salary pension schemes to current employees and new entrants. Congress is totally opposed to the closure of final salary pension schemes and calls on the CEC to oppose all such closures so that both existing and new members of such schemes can enjoy dignity in retirement

Also under consideration is the transfer of employee's pensions to money purchase schemes, which are associated with a higher degree of risk, because of exposure to stock market precariousness, obviously the implementation of this option would take away the protection that final salary schemes offer to our members.

We believe that many companies are using the down turn in the economy as an excuse to close final salary pension schemes and we call on Congress to give maximum support to our members whose pension schemes come under threat and call upon the Government to legislate to give greater protection to all workers' pensions' schemes.

SUPPORT FOR MANUFACTURING

Congress, during the 1980's and early 1990's, the Tories tried to destroy British manufacturing and the towns manufacturing firms were based in.

Many towns however survived and maintained their industrial base. One example of this is Rotherham. However, in the space of 10 days in January 2009 it was announced that Burberry would be closing its factory in the town and Corus announced 718 job losses from its Rotherham plants. These are victims of a recession caused by the banking industry.

Congress notes with anger the lack of support given directly to Manufacturing as a whole during the downturn in the economy. The UK Government should wake up to the fact that the previous policy of allowing manufacturing industry to "wither on the vine" has proven to be a total failure. The Government must reverse this policy.

This Congress is alarmed at the rate of job losses within the manufacturing industry and calls upon the Government to devise a robust policy to halt the decline of manufacturing companies within this very important sector of the British economy

Redundancy and short time working created by the near economic meltdown in the financial markets, driven by the irresponsible "money for nothing" bonus culture of the city speculators and their ilk has brought our system to a virtual collapse.

Whilst workers in manufacturing are punished by losing their jobs, the banks have been given billions of pounds by the Government. Instead of using this money to give credit to companies, it has been sitting in bank vaults or used to pay massive bonuses to chief executives of the banks – a reward for failing in their jobs. We urge the Government to stop subsidising the banks and use the money to help the genuine wealth creators.

Whilst the Dutch Government is guaranteeing the wages of Dutch Corus workers, Britain's Labour Government is failing to support the very people who are its core supporters. It has taken months since the onset of the credit crunch for the Government to act in response to industry.

The CEC should continue to campaign for a Government Manufacturing Strategy that would halt and reverse the decline in employment in the Manufacturing Sector.

Therefore this Congress now calls on the Government to widen the support to British Manufacturing to protect jobs.

UK MANUFACTURING

Congress notes that the current terminal decline of the UK Economy clearly demonstrates the madness of building an economic around financial services without a sound industrial base. Manufacturing needs the same or similar help as Northern Rock and many other banks and institutions

Congress calls on the Government to recognize the facts; to accept that our future and the wealth of our nation depends upon a strong and competitive manufacturing sector.

Congress further recognizes that real wealth depends upon real products made by real workers selling for real pound notes.

We need to stop employers shipping jobs abroad using the economic crisis as an excuse, when in reality it is because it is easier and cheaper to shed jobs in the UK than anywhere else across Europe.

Companies such as Remploy, Honda, Burberry, Rover, Kodak, Motorola, SR Gents, Northern Foods, JCB and Christie Tyler to name a few have all gone to the wall.

Congress calls on the CEC to set up a national campaign group 'to save manufacturing jobs' before the word manufacturing becomes a thing of the past and to plan and implement a campaign to change Government policy and to secure a comprehensive industrial policy designed to rebuild our manufacturing industries.

REMPLOY

Congress calls upon the Labour Government to support Remploy Factories that are still open, to be used to provide additional training facilities to assist able and disabled people back into employment. It's been 18 months since 28 factories were closed. Many of our members still have no job and this is people with disabilities.

The factories were closed by a Labour Government and a fat cat greedy employer, we can't ever forget what these people have done and let this Labour Government know we are not going away.

Where are the jobs in open employment that a Labour Government said there would be in open employment? The factories that are left remain as manufacturing units.

Congress calls on the CEC to do everything possible to pressure the Government to re-open as many units as possible such as Remploy, York where we need to continue to have a manufacturing unit, but it not only applies to York.

The award of public procurement contracts would allow this to happen, and this was the Labour Government's promise that they have failed to keep.

Congress calls on the CEC to lobby the European Parliament on Article 19 where it currently stands that a government department council or service may offer a reserved contract. This wording under European Directive needs changing to allow organisations with 50% of disabled people to bid for reserved contracts.

Very few management personnel have been removed and the top heavy senior management structure is crushing the company which will impact on our members.

This has been a very hard 3 years for all our members who have been treated with disrespect by the Government and the management.

Many of our members, activists and officials put up an excellent fight and campaign to keep Remploy open. We call on this Congress for a message of thanks, as some of these people will have departed Remploy and our organisation.

INVEST IN THE PUBLIC SECTOR

We call upon congress to ask the GMB to call on the Government to increase the funding available to Local Government from Central Government Funds, and reduce the pressure on them to make continual savings, as local services are suffering an increasing detriment every year. This is likely to lead to an irreversible lowering of the quality of services if continued and has already put a great deal of stress on GMB members who are bearing the brunt of year on year savings.

The pressure on Local Government to make year on year savings at the level set by the present Government is not sustainable. Although efficiencies are possible, and even necessary in some cases, a continued reduction in funding at this level will result in the collapse of many public services. As the banks are being bailed out with £50+ billion local councils are struggling to make ends meet. This is leading to many Local Authorities looking to the private sector to help increase their funding. This does not make sense, why is the Government helping out the financial sector and leaving the public sector to languish and seek help from those who may well be banging on the chancellor's door for a bailout as the economic turmoil deepens. But it now seems there is a bottomless pit available for the banks.

Local authorities are governed by democratically elected councilors, were as the banks have no one democratically appointed to voice the opinions of the taxpayers, of whom this money comes from. As the banks are now being almost nationalised it is madness that a continual reduction in grants to the public sector is driving them to seek private finance to support essential services.

We believe that the Prime Minister should help to support essential Public Services, who are making increasing cuts, over and above those from the Private Sector who may have either borrowed or lent beyond their means. As the initiative to bring us out of the current crisis is to increase spending, we believe this should be directed at the Public Sector as well as the Private Sector.

Congress we call upon you to lobby government to stop capping local authorities and start investing money into them we are told that there is no extra money available but we are expected to carry on providing services for less and less.

SCHOOL SUPPORT STAFF

This Congress has concerns that school support staff are fulfilling the role of the class room teachers, i.e. Higher Learning Teaching Assistants (HLTA), in one case an HLTA on a 37 hour working week, 90% of a week with no teacher support at all..

HLTA's are teaching pupils for a qualification in GCSE that they themselves have not got.

HLTA's are taking classes with LSA's (Learning Support Assistant) with no teacher support and planning classes without teacher input. We would also like to see listed the amount of hours laid down on how many hours per week support staff are to cover a class without teacher support.

They continue to be employed on temporary or fixed term contracts – those employed on a permanent basis still face the annual attack on their hours due to school budget constraints.

Many Teaching Assistants who have special needs skills continue to be employed via funding for a specific child face either reduction in hours or termination of employment when that child changes school. Teachers are leaving school employment only to be replaced by an HLTA, with no attempt at replacing the teacher or using supply teachers. We feel that support staff are being abused purely for savings on School budgets and the knock on effects are the pupil's education and indeed the support staff are fulfilling roles that they are not trained or paid for.

We even have one example in the South Western Region where a school which has overspent is now proposing to cut the Teaching Assistant's hours **and** down grade them through the job evaluation process!

The Workforce Agreement Monitoring (WAMG) has guidelines in force, but we feel that there are grey areas that need urgent attention, locally and national i.e. what is a group of pupils, and what is a class. One Head teacher insists that a group is up to 28 pupils.

Hopefully once the national joint committee for school support staff is in place these specific issues can be addressed. Until then we call upon Congress to continue to highlight the inequality of this group of workers who are predominately low paid, part time women workers.

To conclude, Congress we ask you to support this motion.

UK ECONOMY AND PUBLIC SECTOR FUNDING

Congress recognizes that the UK economy is facing the worst recession since the Second World War, with the UK on course to be bottom of international growth league amongst the major advanced economies, according to the latest figures from The International Monetary Fund.

The IMF predicts that the World Economy will nearly stand still with only 0.5% growth, the UK economy in 2009/2010 will shrink by a staggering 2.8%, with dire implications for jobs, house prices and public finances.

Congress condemns the sheer greed and irresponsibility of the banks and financial institutions that are the sole reasons for the current economic meltdown.

Whilst we acknowledge the Government has a responsibility to intervene to assist in the overall economy, to bail out the banks with billions of pounds of tax payers' money is not the right way to intervene.

Congress calls for central Government to reconsider this strategy and invest some of this money earmarked for fat-cat bankers in local government. This, coupled with the 3 billion in extra savings from efficiencies will assist in improving services sustaining jobs and stimulating local economies.

Congress calls on the CEC to campaign to ensure that the UK Government fights the recession with every weapon at its disposal. Without Government intervention the consequences of the recession will be enormous for GMB members and our communities.

In particular, Congress calls for substantial and sustained investment in public works and public services to halt the spiral of decline; to ensure that economic growth is maintained and to provide the essential boost to ensure that the UK economy is lifted out of recession.

SHORT SELLING SHARES

Congress agrees that the practice of short selling shares on the stock market, which is the selling of a security which the seller does not own. In the expectation that the share price can be forced down and then bought back at a lower price then sold thereby making a profit, is immoral and dangerous to the health of the country.

Immense damage can be done to sound companies by this practice, it puts jobs at risk, contributes to firms closing and jobs being lost, leading to untold misery and hardship for the workers thrown out of work - all so profiteers can make money. Congress directs the Central Executive Council to campaign for the ban on short selling of shares and equities and hedge trading.

Congress therefore calls on the Government of the day to make such activity illegal, thereby protecting the interests of the majority against the greed of the few.

BANKING AND FINANCE INDUSTRY

Congress is called upon to lobby this Government to set up a national watchdog to strictly control the banking industry, so that they are run for the benefit of UK citizens and not some fat cat director/share holder who could not care less about the credit crunch. These fat cats should be sacked and not rewarded with huge bonuses.

Congress directs the Central Executive Council to campaign that those banks in which the Government has more than 50% stake should be brought under direct public control ensuring a democratic use of capital within the UK.

HOUSE REPOSSESSIONS AND MORTGAGE PROTECTION

More and more workers are losing their jobs and having their homes repossessed because of the economic crisis and weak financial regulations.

Congress calls on the Labour Party to end repossessions of houses that have mortgages with banks that are owned or partly owned by the Government and to act urgently to:

- (i) Legislate that all mortgage lenders must include unemployment and sickness protection insurance in the mortgage terms
- (ii) Set up a Regulatory Authority to protect the borrower from excessive insurance premiums and to arbitrate in disputes between lender and borrower

REDUNDANCY & SHORT TIME WORKING

Congress

We ask the CEC to facilitate assistance from the Government for employers to enable them to keep our members in employment during economic downturns where dismissal could be the only alternative, as is the case in many of our European counterparts.

We believe that one of the ways to assist the fight against the Credit Crunch is for the GMB to urge the Government to adopt the 'short time working assistance' policy which was worked in the same way as Statutory Sick Pay, last used in the 1970's that would help keep some industries afloat.

149. UNION VOICE IN THE LABOUR PARTY (North West & Irish Region)

150. OUR UNIONS VOICE IN THE LABOUR PARTY (Northern Region)

OUR UNION'S VOICE IN THE LABOUR PARTY

Congress notes that in expectation of a snap General Election, the 2007 Labour Party Conference was persuaded to suspend its own right to vote for or against 'contemporary' motions on important policy issues. It was however agreed this suspension should NOT continue for more than two years without being subject to a review.

Congress now believes that the need to restore the right of our union and others to move and vote on motions at the Labour Party Conference has been clearly demonstrated on a number of issues, for example, Remploy, Manufacturing, Public Services and Pensions. The need for this facility has been further increased by the current international economic crisis and is even more urgent.

Congress therefore calls on our representatives to the Labour Party to press as a matter of urgency for our union and others to recover the right to submit motions to the party conference for full debate and voting.

Congress further calls for the criteria for accepting such motions onto the agenda to be broadened, lifting the restriction, so that they are not restricted to topics involving specifically 'contemporary' incidents occurring in the few weeks before the Labour Party Conference.

Congress also believes we should take every opportunity given for unions to bring forward all matters of concern to our members, and that we should seek commitments of support from the WHOLE of the Labour Movement.

LABOUR PARTY NATIONAL POLICY FORUM

Congress notes that the Labour Party conference has regularly been persuaded to adopt constructive policies similar to or in line with those of our own for example, Pensions, Housing, Manufacturing and Public Services. But these Policies have not been subsequently pursued by key parts of the Labour Party hierarchy with sufficient urgency.

In particular, important union policies agreed by the Labour Party conference (which is constitutionally the Party's supreme policy making body) have regularly been undermined by the failure of the Labour Party's National Policy Forum to campaign for their implementation.

In order to rectify this situation and increase the accountability of Labour's National Policy Forum members involved, Congress now calls on GMB representatives to press for the National Policy Forum's constituency members to be elected (in the same way as those on the

Party's National Executive Committee) by a ballot of the whole membership of the Labour Party.

ROYAL MAIL & POST OFFICE CLOSURES

Congress, in the Labour Party Manifesto 2005, we were told of the Party's driving force for innovation and competition. They commented how their Policy Document states "Britain is working; we have given Royal Mail greater commercial freedom and have no plans to privatise it". The Policy also says "The Party's ambition is to see a publicly owned Royal Mail, fully restored to good health providing excellent service and giving employees rewarding employment". To be blunt - how rewarded did employees of Royal Mail feel when they learned part of their service was to be privatised or sold off?

At the beginning of the year the government published the Hooper Report, which recognised that the contract for final delivery of letters of its competitors has been set too low. It also suggested that the Post Office should look for a private sector partner to share in its workload. Congress believes this would amount to backdoor privatization.

Congress also recognises the importance of the Post Office to local communities not only in rural areas but also in suburban areas of major towns and cities. Research has shown that having a local Post Office helps support up to sixteen other retail outlets in small town and village centres.

This Congress believes that the recent bout of Post Office closures was wrong and will be the death sentence for a number of rural villages and suburban shopping centres. We believe that it is wrong to expect the Post Office to make a profit and provide a universal service while allowing main work streams to be put in the hands of private competitors able to compete with the Post Office by not recognising trade unions, not providing pensions and only paying rates of pay just above the minimum wage.

To sell off parts of Royal Mail, risks breaking up a great public service. Congress calls on the GMB to support the CWU trade union's campaign to keep the Post Office in the public sector and oppose privatisation by the front or back door. The Post Office should be allowed to compete on fair terms with the private sector by being able to offer high quality services to the public across the whole of the UK at a fair price.

This Congress notes that the Labour Party Conference 2008 supported a view of a wholly publicly owned, integrated Royal Mail group. Congress calls on the Secretary of State to think again and not sell out to foreign firms like TNT, support Royal Mail back to full strength.

LOCAL AUTHORITY HOUSING

Congress recognizes that despite the current housing crisis and the collapse of house prices caused by reckless private investment practices, there is still a huge under supply of housing in the UK.

Congress further recognizes that if our future housing needs are to be met it is now clear that this can only be delivered by public investment delivered by local authorities.

Congress calls upon the Government to abandon its, clearly unjustified, faith in the private sector and return the control and management of social/public housing to local authorities.

Congress calls upon the CEC to lobby the Government to:

- provide the legislative protection and investment to ensure our future housing needs are delivered by our local authorities.
- Divert monies being given to private banks, and not being passed on to the public and Local Authorities in order to build more social housing.

This will provide affordable shelter for not only those made homeless by the current credit crisis and those already on long waiting lists, but will also provide a welcome stimulus to the building industry, with the subsequent knock on effect to the suppliers to the industry.

We call upon Congress to lobby the Government for a much improved care service for the elderly. General care, better resources, support from Social Services and meals on wheels are just some of the issues that need to be addressed. We need to eliminate the sheer neglect that clearly exists and urgently seek improvement.

Congress calls upon the CEC to instruct Labour Government to implement the promise that Tony Blair made the day New Labour was first elected to power in 1997, being **"no longer will people have to sell their homes to pay for their care"** and to bring about an increase to the limit of the personal wealth allowance under the current legislation in order to safeguard those who go into care homes.

CARE WORKERS

Congress we are well aware of the invaluable hard work undertaken and sacrifices made by carers thus saving the economy billions of pounds; only a small minority of carers receive financial recognition from the State. This is supposed to be recognised by the Carers' Association. Whilst Congress welcomes the UK Government's extension to the "Right to Request Flexible Working" for carers of adults, more needs to be done.

Congress calls upon the CEC to continue to put pressure on Government: -

- iv) to ensure there is employer action to help carers stay in work
- v) that carers receive better financial support
- vi) the continuation of work on the gender pay gap, highlighting the high price women pay for having to take unpaid time off out of the labour market to provide care for their dependants.

Whilst there is a case for increasing the Carers' Allowance, what is of great concern is the seemingly arbitrary way decisions are made as to who is entitled to Carers' Allowance and who is not. It appears as if decisions are made on the basis of how well known the illness/disability is to the decision maker.

Rather than purely a civil servant deciding who is entitled to Carers' Allowance, Congress calls for some independent medial input to ensuring everybody who is a carer gets the help and recognition they deserve.

CENTRAL EXECUTIVE COUNCIL RULE AMENDMENTS

Line numbering refers to line number in the rulebook

CECRA1 Rule 5.5

After first sentence insert new sentence:

“The Central Executive Council will make the final decision on a recommendation from a Region”

New Clause 5.5 to read:

5 Regional councils or regional committees have the power to recommend that the Central Executive Council cancel, and the Central Executive Council (with or without a recommendation) has the power to cancel, the membership of any member for any of the reasons set out in clause 4 above. The Central Executive Council will make the final decision on a recommendation from a Region. A member who has their membership cancelled will not be eligible to rejoin without the permission of the Central Executive Council or the appropriate regional committee.

CENTRAL EXECUTIVE COUNCIL

CECRA2 Rule 5.7

Line 2: After “clause 4 or 5” insert:

“(except where the Central Executive Council has made the final decision on a recommendation from a Region)”

New Clause 5.7 to read:

7 If the member is not satisfied with the Central Executive Council’s decision under clause 4 or 5 (except where the Central Executive Council has made the final decision on a recommendation from a Region) of this rule, he or she can appeal by writing to the general secretary within one month of the decision being made. The case will be referred to the Appeals Tribunal, who will make the final decision. In giving its decision, the Central Executive Council must tell the member, in writing, about their right to appeal.

CENTRAL EXECUTIVE COUNCIL

Note: Rule Amendments to Rule 5.5 and 5.7 clarify the appeal process for disciplinary cases where a member may have their membership cancelled.

CECRA3 Rule 19.13

Delete first sentence “In each region there will be a regional equal rights committee and a regional race advisory committee.” and insert:

“In each region there will be a regional equality forum”

and

Line 4 delete “committees” and insert “forum”

New clause 19.13 to read:

13 In each region there will be a regional equality forum. The members will be elected in whichever way Congress feels is appropriate. The forum will be set up to advise the regional council and the regional committee.

CENTRAL EXECUTIVE COUNCIL

CECRA4. Rule 20.2

Lines 2, 3, and 6 insert "black and minority ethnic"

Lines 2, 3, and 7 delete "regional race advisory committee" and insert "regional equality forum"

New clause 20.2 to read:

2 Two representatives will be elected to seats on regional councils reserved for black and minority ethnic members of the regional equality forum. Only black and minority ethnic members of the regional equality forum will be eligible to be nominated for election under this clause. One of the two seats under this clause will be reserved for women, and only black and minority ethnic women members of the regional equality forum will be eligible to be nominated for election to that seat.

CENTRAL EXECUTIVE COUNCIL

Note: Rule Amendments to Rule 19.13 and 20.2 are as a result of the adoption by Congress 2008 of the "Equality Through Inclusion – The GMB Strategy" Report and reflect the new equality structure.

CECRA5. Rule 64

Lines 5 and 6 delete "regional council or"

Line 8 delete "2.6", insert "2.8"

New Rule 64 to read:

Members who are candidates for local public organisations will be chosen by our members from a list of Branch nominations. The candidates must have been in the union for at least 12 months before they can be nominated, and must be approved by the regional committee. The regional committee can choose whether to give financial support to these candidates (see rule 2.8).

CENTRAL EXECUTIVE COUNCIL

Note: Rule Amendments to Rule 64 mean that as regional committees meet more frequently so these matters can be expedited, and tidy up an incorrect cross reference

CECRA6. Rules 65.3, 65.4, 65A.8

Delete "Brandon House, 180 Borough High Street, London SE1 1LW"

Insert "22nd Floor, Euston Tower, 286 Euston Road, London NW1 3JJ"

CENTRAL EXECUTIVE COUNCIL

Note: to amend the rulebook to show the new address for the Certification Office for Trade Unions and Employers' Associations

CECRA7. Rule 36.9

Line 3 Delete: "January", Insert "December"

New Clause 36.9 to read:

9 Representatives to trades councils and similar local organisations will be elected at the last meeting in December each year.

CENTRAL EXECUTIVE COUNCIL

Note: brings clause 36.9 into line with clause 36.18 so elections held under clause 36.9 take place in a month when the rulebook states a meeting should take place.

CONTRIBUTIONS AND BENEFITS

CECRA8. Rule 46 Clause 1

Line 3: Delete "£2.50", insert "£2.55"

Line 8: Delete "£1.38", insert "£1.43"

Clause will now read:

1 Once they join the union, members will pay a contribution in line with this rule.

Members will pay £2.55 a week and be classed as grade-1 members, unless they are:

- part-time members employed for 20 hours or less;
- young people under 18; or
- recruited as being unemployed;

in which case, they will pay £1.43 a week and be classed as grade-2 members. However, grade-2 members can choose to pay the contribution rate for, and be classed as, a grade-1 member.

The above grades are only used for deciding what contributions members should pay and the benefits they may receive

CENTRAL EXECUTIVE COUNCIL

CECRA9. Rule 46, Clause 2

Line 4: Delete "£2.50", insert "£2.55"

Line 5: Delete "£1.38", insert "£1.43"

Clause will now read:

- 2 Branch committees will have the power to fix the amount lapsed members (members who joined but later stopped paying contributions) need to pay to rejoin. This amount will be between £2.55 and £10 for grade-1 members and between £1.43 and £5.50 for grade-2 members, except in particular circumstances when we may increase the amount with the approval of the regional committee.

CENTRAL EXECUTIVE COUNCIL

CECRA10. Rule 50 Strike benefit, Clause 1

Line 5, delete "grade-1"

Line 7, delete "Grade-2 members will receive £5 a day (up to £25 a week), and payments will be linked to the Government's rates of inflation."

Clause will now read:

1 If members stop working unconstitutionally, no benefit can be paid without the approval of the Central Executive Council. If members stop working as a result of a strike approved by the Central Executive Council in line with these rules, every full financial member who stopped working will receive £10 a day for 10 weeks (the limit being £50 a week). In any dispute, the Central Executive Council may increase these rates by any amount, at any time, and for as long as it feels is appropriate.

CENTRAL EXECUTIVE COUNCIL

CECRA11. Rule 53 Victimisation benefit, Clause 2

Line 1, delete "Grade-1"

Line 2, delete "Grade-2 members will receive £2 a day or £10 a week for six weeks."

Line 4, delete "grade-1"

Line 5, delete "Grade-2 members will receive £1.65 a day or £8.25 a week."

Clause will now read:

2 Members will receive victimisation benefit of £4.20 a day or £21 a week, for six weeks. If a member needs benefit for another six weeks, they will receive £2.40 a day or £12 a week. In any dispute, the Central Executive Council may increase these rates by any amount, at any time, and for as long as it feels is appropriate.

CENTRAL EXECUTIVE COUNCIL

CECRA12. Rule 54 Disablement grants, Clause 1,

Line 1, delete "(for grade-1 members) or £2000 (for grade-2 members)"

Clause will now read:

1 The Union will pay a grant of £4000 to any member who is permanently unable to work as a result of an accidental injury, as long as that person, at the time of the accident, had been a continuous member for 12 months and did not owe more than six weeks' contributions.

CENTRAL EXECUTIVE COUNCIL

CECRA13. Rule 58 Fatal accident benefit, Clause 1,

Line 9, delete "grade-1"

Line 14, delete "For a grade-2 member who:

- dies in an accident; and
- has been a continuous member for 12 months;

we will pay £2000, within 12 months of the accident.”

Line 18, delete “grade-1”

Line 22, delete “For a full financial grade-2 member who has an accident (other than while working at their usual place of employment) from which they die within 12 months, we will pay £550.”

Line 36, delete “49.7”, insert “48.7”

Clause will now read:

1 In line with clause 3 below, we will normally pay fatal accident benefit to the husband, wife, child, parent or partner (including same-sex partners) of a member who has died and who was a full financial member. The relative claiming benefit must have completely or partly depended on the member for the ordinary necessities of life according to their circumstances.

We will pay fatal accident benefit as follows.

- For a full financial member who:
 - dies in an accident;
 - was working at their usual place of employment; and
 - has been a continuous full member for 12 months;

we will pay £4000, within 12 months of the accident.

- For a full financial member who has an accident (other than while working at their usual place of employment) from which they die within 12 months, we will pay £1100.

We will only pay one type of fatal accident benefit for any one financial member. The Central Executive Council will have the power to decide which of the above people we will make the payments to. If more than one person is entitled to the payment, the Central Executive Council has the final decision about how the payment should be divided.

We will only pay the benefit if, at the time of the accident and when making a claim, the member had been paying full grade-1 or grade-2 contributions (unless they were paying contributions at a different rate under rule 48.7) and did not owe more than six weeks' payments.

CENTRAL EXECUTIVE COUNCIL

CECRA14. Rule 59 Weekly accident benefit, Clause 1

Line 1, delete “grade-1”

Line 3, delete “Grade-2 members will be entitled to accident benefit of 80p a day (and up to £4 a week).”

Clause will now read:

1 A full financial member who is absent from work because of an accident will be entitled to accident benefit of £1.85 a day (and up to £9.25 a week). We will not pay accident benefit for more than 11 weeks. Also, we will not pay benefit to a member who has an accident when they are not working.

Line 16: Delete "Rule 49", insert "Rule 48"

Line 21: Delete "£7.50, £4.14", insert "£7.65, £4.29"

Clause will now read:

8 The Central Executive Council shall give effect to the exemption of members to contribute to the Political Fund of the Union by relieving any members who are exempt from the payment of part of any periodical contributions required from the members of the Union towards the expenses of the Union as hereinafter provided and such relief shall be given as far as possible to all members who are exempt on the occasion of the same periodical payment.

For the purpose of enabling each member of the Union to know as respects any such periodical contribution what portion, if any, of the sum payable by him/her, is a contribution to the Political Fund, it is hereby provided that the annual contribution to the Political Fund of the Union shall, for Grade 1 members be the sum of £7.65, for Grade 2 members the sum of £4.29, and for members paying the reduced rate under Rule 48 the sum of 15p. The contribution to the Political Fund shall be payable in three equal instalments on the first contribution nights of the quarters ending March, September and December.

Any member who is exempt as aforesaid shall be relieved from payment of the said sum of £7.65, £4.29 and 15p respectively. The Central Executive Council shall have power to suspend at any time payment to the Political Fund for any quarter or quarters, in which event, that portion of the member's contribution allocated to political purposes shall be credited to the Central Fund.

EXISTING POLICY MOTIONS

In accordance with Recommendation 14 of the "Framework for the Future of GMB: Moving Forward" CEC Special Report carried by Congress 2007, Congress 2008 agreed to endorse motions that the CEC determined were already in line with Existing Policy.

The CEC has identified the motions listed below as being in line with existing GMB policy. Congress 2009 will be asked to endorse these motions. If agreed, the motions will not be debated. The recommendation to Congress will be reported in SOC Report No 1 at the start of Congress.

Note: The following Existing Policy motions have been withdrawn from the Preliminary Agenda

- 49. EMPLOYMENT RIGHTS FROM DAY ONE
- 102. CRAFT APPRENTICESHIPS
- 163. POLITICIANS CONFLICT OF INTEREST
- 188. HOUSING
- 202. ORGAN DONATION
- 209. PAYING CARERS FROM THE MONEY THEY SAVE THE PUBLIC PURSE
- 212. HEATING AND FUEL

CEC STANCES on EXISTING POLICY MOTIONS

The following outlines the stance adopted by the Central Executive Council towards each motion deemed as Existing Policy at its meetings in March and April 2009.

33. EQUALITY REPRESENTATIVES

The call for statutory support for Equality Representatives is existing policy affirmed by Motion 52 carried at Congress 2008.

38. THE STATE OF THE BRITISH PENSION PROVISION

Motions have been passed regularly at GMB Congresses calling for GMB to highlight failings in the UK pension system.

45. STATE PENSIONS FOR WOMEN

This is in line with GMB policy (Composite 2 carried at Congress 2008).

47. PRIVATE EQUITY RESPONSIBLE INVESTMENT

50% member nominated trustees is longstanding GMB, TUC and Labour Party policy as is an outstanding government commitment from Warwick I.

50. TRADE UNION FREEDOM BILL

This is existing GMB policy as confirmed by Composite Motion 5 carried at GMB Congress 2007, and by Motion 81 carried as existing policy at GMB Congress 2008.

51. TRADE UNION RECOGNITION LEGISLATION

This is existing policy as confirmed by Motion 79 carried at GMB Congress 2007.

54. LEVEL PLAYING FIELD – TERMS AND CONDITIONS

This is existing GMB policy as agreed at Congress 2005 (motions 172 and 179) and the subject will in any case be covered in the CEC Statement on the Economy and Manufacturing.

61. PUBLIC HOLIDAYS

It is GMB policy to campaign for additional day's public holiday, to align the UK with the average number of public holidays enjoyed in the EU.

76. ENERGY POLICY

This is in accordance with Motion 119 "Coal and New Technology" and Composite Motion C10 "Balanced Energy Policy", which were carried at Congress 2007.

85. MOTION

This motion echoes long-standing GMB policy on public ownership.

107. LOCAL GOVERNMENT TRANSFORMATION

GMB campaigns against the outsourcing of jobs at all levels.

122. LOCAL GOVERNMENT PENSION SCHEME

GMB is continuing to carry out the actions requested.

125. DILUTION OF HOUSING CARETAKING SERVICES

GMB is campaigning to retain all services in-house wherever possible.

145. THE ENVIRONMENT

This policy was agreed at Congress 2008 therefore there is no need for debate.

158. GMB POLITICAL SUPPORT

In line with Policy carried at Congress 2008 where motion 133 was carried, the decision to fund or not to fund individual MPs is made on the basis of their support for GMB at both a national and regional level.

166. URGENT ACTION AGAINST THE BNP

This is in line with existing policy carried Congress 2007 by motion 202.

190. COUNCIL HOUSING

This proposal is in line with Congress policy passed in 2005 with composite 28.

196. PRESCRIPTION CHARGES

GMB supports the abolition of charges for medicines and a return to the founding principles of the NHS, carried at Congress 2008 in Emergency Motion 1.

203. PUBLIC TRANSPORT

An integrated transport system is long standing GMB policy, most recently reinforced by motion 185 carried at Congress 2008.

215. FUEL POVERTY

There are now an estimated 4.5 million households in fuel poverty, a 140% rise in the last 4 years. The actions called for in this motion are in line with existing policy and the GMB has also been pursuing policy issues to improve the Warm Front Programme. Additionally, GMB's Emergency motion carried at TUC Congress 2008 outlined the failing energy market and called for suppliers to genuinely offer low cost social tariffs, levying a windfall tax on energy companies and using this revenue to provide financial assistance to the neediest households.

EMERGENCY MOTIONS

EM1. BAN THE BLACKLISTERS

Congress,

The unmasking of the Consulting Association as a supplier of information about workers to the building trade shows the practice of blacklisting trade unionists still continues. We deplore the fact they were allowed to continue for so long and condemn those companies that used the service of this organisation. As a trade union, we also deplore the fact that a Labour Government was negligent in including the banning of just such practices in legislation yet, did not enact it.

This practice must be put firmly in the dustbin of history. Congress calls on the Government to finally make the holding, distribution and use of blacklists illegal, with massive punishments to both the supplier and end user.
